

Chapter 1

INTRODUCTION

1. Rationale

Local government units are mandated to provide basic services to promote the overall development of the community and its people. However it is reality that most rural communities do not have the financial capability to implement the identified demand driven programs and projects. Hence the need to prioritized the projects in order to maximize the utilization of limited funds.

2. Objective of the Plan

The plan is primarily aimed at presenting and appreciating the existing situation by the barangay people themselves, analyzing the situation using standards and other means of measurement to come up with identification of needs and corresponding interventions.

3. Scope of the Plan

The scope and coverage of the plan is limited to the Barangay of Tologan , Hagonoy, Davao del Sur for the period of five (5) years. The plan is composed of two (2) parts, the barangay profile which is the result of the participatory rural appraisal which defines the collective ideas of the residents in terms of the history, culture and traditions, and resources as well as their strengths, weaknesses, opportunities and threats. The second part is the barangay development plan that starts with the expression of the collective vision and mission and presentation of their sectoral programs and projects.

4. Planning Methodology

The participatory approach in plan formulation was used giving weight to the data and experiences shared by the workshop participants. The data and information were provided by the people themselves and processed using the PRA tools. However inspite of this, we still cannot avoid mistakes and deficiencies.

This effort is just the beginning of an organized and orderly journey towards development.

Chapter 2

BARANGAY PROFILE

INTRODUCTION

a. Historical Background

Tologan was once a sitio of Municipality of Sta. Cruz, and Padada being its barrio. When Hagonoy became a Municipality in March 3, 1959 and because Hagonoy lack of Land area so we belong to Municipality of Hagonoy, Tologan became one of its barangay.

According to the accounts of early settlers, there was a big tree that adjacent to the river that the people came from Municipality of Sta. Cruz they well rest under the tree and sleep so they called as in visayan term "KATULOGAN", so they called the place Tologan until at present.

b. Demography

Table No. 1. Population Size, Growth and Density

Total Population	1631
Total No. of HHs	376
Average HH Size	6
Density	
Growth Rate	

Source [BNS](#)

Population size, growth rate, average family size as of the latest NSO population census, barangay Tologan has a total of 1,631 population, with a total household of 376 it has an average of 1.07% annually. (see table 1 above)

The low growth rate may be attributed to the limited job opportunities open to available labor force. Hence, skilled workers and college graduate seek for greener pastures outside of the barangay.

**Table No. 2. Distribution of Population
Barangay Tologan, Hagonoy, Davao del Sur**

Purok	Population		No. of HHs
	Male	Female	
Purok 1	103	92	45
Purok 2	87	78	39
Purok 3	60	52	32
Purok 4	299	250	118
Purok 5	172	147	76
Purok 6	157	134	66

Source: BNS Survey

The population and households are distributed in the seven (7) Puroks with most households located in Puroks 2 and 3. The least number of households reside in Purok 7. The concentration of households in Puroks 4 and 5 is attributed to its accessibility to institutional facilities, such as the Barangay Hall, Elementary School, Barangay Health Station and Chapel as well as the Barangay site where the households were relocated. See Table 2.

**Table No. 3. Age and Sex Distribution
Barangay Tologan, Hagonoy, Davao del Sur**

Age Group According to Sex	Gender	
	Male	Female
Children 0 – 5	123	96
Children 6 – 12	115	99
Children 13 – 17	106	86
Adult 18 – 35	291	223
Adult 36 – 50	134	129
Adult 51 – 65	84	90
Adult 66 yrs old & above	22	33

Source: BNS Survey

The barangay population is predominantly composed of young people with males slightly more than females. (see table – 3 above). It shows that the barangay has to provide more services and facilities intended for young people.

**Table No. 4. Marital Status
Barangay Tologan, Hagonoy, Davao del Sur**

Civil Status (ex. Single, married, etc)	Population
Single	523
Married	575
Widow	39
Widower	39

Source: BNS Survey

**Table No. 5. Population by Mother Tongue
Barangay Tologan, Hagonoy, Davao del Sur**

Types of Dialect (ex. Cebuano, Tagalog, Ilonggo, etc.)	Population
Cebuano	1,567
Boholano	30
Kalagan	7
Tagakaolo	20
B'laan	5
Ilonggo	34

Source: BNS Survey

The population of Barangay Tologan homogeneous as majority of the population are Visayans with more than eighty percent (80%) speaking the Cebuano dialect followed by the Boholanos, Ilongos, and Tagkaolo. (see table – 5 above)

**Table No. 6. Ethnic Groups
Barangay Tologan, Hagonoy, Davao del Sur**

Types of Ethnic Groups (ex. Bagobo, manobo, etc)	Population
Visayan	1,567
Boholanos	30
Ilonggo	34
Kalagan	7

Source: BNS Survey

The original settlers of the Barangay were composed of the K'lagans and the B'laans. When the Visayans arrived they acquired the lands from the natives through barter with carabaos, coffee, sugar and tobacco. The Visayans cleared and cultivated the area pushing the natives farther into hinterlands of Kiblawan and Matanao. Today the number of indigenous people are dwindling and they compose the minority group in the community (see table – 6 above)

**Table No. 7. Religious Affiliation
Barangay Tologan, Hagonoy, Davao del Sur**

Types of Religion (ex. Islam, etc.)	Population
Roman Catholic	1,570
Iglesia ni Cristo	3
Islam	6
Protestants	70
Assembly of God	44
Catholic (PBMA)	10

Source: BNS Survey

Almost ninety percent (90%) of the population embrace the catholic faith. The remaining ten (10%) percent belong to various religious denominations. (see table-Z above)

**Table No. 8. Labor Force/Employment
Barangay Tologan, Hagonoy, Davao del Sur**

Types of Employment	Population
Driver	21
Tailor/Sewer	5
Tuba Gatherer(Mananggiti)	1
Carpenter	19
Laborer	700
Barber	5
Mason	5
Manicurist	2

Source: BNS Survey

Most of the population in the Barangay are farmers as landowners of farm laborers. The others engaged in various vocations either in part-time or full time basis particularly during off planting and off-harvest seasons. (see table – 8 above)

**Table No. 9. School Age Population Distribution
Barangay Tologan, Hagonoy, Davao del Sur**

Classification	No.
06-14 years old (elementary school-going age)	213
13-16 years old (secondary school-going age)	125
17-21 years old (tertiary school-going age)	100
Others (ALS)	20

Source: BNS Survey

As shown in the Table – 9, above a greater number of children of school-going age are out-of-school, specially in the secondary and tertiary levels of education. The reasons may be attributed to poverty, lack of interest, and parental encouragement. During and harvesting seasons the parents forced their children to skip classes to help them in farm chores to augment family income. With long absences in school they become disinterested and ultimately drop from school. The situation added to the problem of child-labor and abuse the rights of the children.

There is an existing agricultural land planted with cash crops covering an area of 320 hectares, permanent crops with 89 hectares and mixed crops of 45 hectares.

Chapter 3

SECTORAL DEVELOPMENT PLAN

AGRICULTURE

a. Existing Situation

Barangay Tologan, Hagonoy, Davao del Sur has a total land area of 482 hectares suitable for cultivation of different crops. The major crops grown in the barangays is bana followed by sugarcane, mango and other.

**Table No. 16. Area Devoted to Agricultural Crop Production
Barangay Tologan, Hagonoy, Davao del Sur**

Crops	Area (Hectare)	% Total Land Area
Sugarcane	132	27.38
Banana	350	72.61
Coconut	20	4.14
Mango	20	4.14
Others	5	1.03

Source: Barangay Survey

a. 1 Farm to Market Roads

Barangay Tologan has a total of 7 kilometers of farm to market roads and paved with gavel. All barangay and farm to market roads is all-weather passable. It is easy for all farmers for their transport of their agri-products to the market.

a. 2 Milling Facilities

The sugarcane milling site is located along barangay Guihing, Hagonoy, Davao del Sur the Davao Sugar Central Co., Inc. There is an insufficiency of hauler trucks to transport the cut sugarcane which resulted low raw sugar products. There is a need to address this problem in order that the farmers can recover their farms inputs.

a.3 Communication Facilities

At present the most convenient, fastest and most dependable means of communication is by the use of mobile phone. Most the farmers are equipped with this facility for any negotiation during pre and harvest season.

a.4 Agricultural Support

There is no credit facility present in the barangay. However, credit and financing services are also available from private entities, planter's cooperative and Davao Sugar Central Corporation.

a.5 Livestock and Poultry

Poultry and livestock in the Barangay are mostly small scale and backyard raised. With feed grains and other feed components readily available for poultry and livestock raising, yet there is insufficiency as against the demand of the local population.

**Table No. 17. Household Raising Livestock and Poultry
Barangay Tologan, Hagonoy, Davao del Sur**

Livestock	P1	P2	P3	P4	P5	P6	Total
Cattle	20	18	30	20	25	15	128

Chicken	80	80	70	90	50	80	450

Source: Barangay Survey

A.6. Crops Production

a. 6.1 Coconut Production

Coconut production is decreasing due to crops conversion to banana and sugarcane. The other reason for conversion of coconut is due to damage cause by aerial spray of the Lapanday foods Corps that will damage the leave of the coconuts tress. Banana and sugarcane plantation generate employment of the people of the baragay that uplift their economic status

a.6.2 Banana Production

Cavendish Banana plantation is present in the barangay which occupied the 75% of the total land area of the barangay. The plantation is privately owned by the Lapanday Foods Corporation. Packing house is present within the plantation area and it will be delivered to the asian neighboring countries and not for domestic use, it generates employment to the barangay residents.

a.6.3. Sugarcane Production

The presence of the sugarcane plantation in the barangay occupies 35% of the total land area of the barangay and it is privately owned by the Gutianon's group of companies the High Yield Sugar Farm Corporation which serves as the sugarcane grower aside from the small-scale sugarcane planters of the Davao Sugar Central Co., Inc. in order to meet the sugar demand in the market

**Table No. 18. Major Crops Production
Mahayahay, Hagonoy Davao del Sur**

Crop	Annual Production (MT)	Average Yield/Ha (MT)
Sugarcane	45	
Mango	10	
Coconut	3	
Banana	500	

Source: Barangay Survey

b. Situational Analysis

The presence of the multi-national investors for banana and sugarcane production generate employment to the local residents of the barangay comprises 70% of the total working population, most are laborer and contractual in nature. Small-scale farmers also present in the barangay engage in mixed crop. There is no more space for the residents to plant vegetables for their domestic consumptions.

c. Goal

To generate more employment of the local residents of the barangay to uplift the economic status, and eradicate the employment of under-age individual and proper administration in the application of the company's farm inputs especially aerial spraying of the banana plantation.

d. Objectives

Considering the development constraints, problems and issues in the economic sector of the Barangay, the following objectives are set:

1. To increase livestock and poultry production to meet the deficiencies in food balance for domestic consumption purposes.
2. To sustain or increase production of commercial crops and invest into processing for value added earnings on bananas or sugarcane.
3. To promote sustainable agricultural practices and to lessen the use of pollutants and inorganic agricultural inputs.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Maintenance of farm to market roads	Purok 3-6	Grading/paving of earfill/gravel	2013-2016	1M	CDF, PDF MDF	DPWH, PEO MEO
2. Barangay Nursery Dev't. Program	Purok 4	Propagation of bamboo/fruit trees seedlings	2013-2017	100K	PDF MDF	PAO MAO
6. Livelihood skills training support	Barangay wide	Conduct of trainings and access of financial support	2013-2016	500K	TESDA, DOLE, DTI, Private	TESDA,DOLE, DTI, Private Sector

INDUSTRY

a. Existing Situation

Barangay Tologan is purely agricultural low-land barangay of the municipality with multi-national agro-plantation.

b. Situational Analysis

1. Construction of flood control project along the riverbank.
2. Additional power lines to the under-energized puroks of the barangay
3. Construction of additional farm to market roads.
4. Construction of Post-harvest facility.
5. Construction of potable water supply.

c. Goal

To generate more employment to the local residents of the barangay and ecologically aware citizens.

c. Objectives

1. To conduct skills training for unemployed youths and individuals.
2. To designate an area suitable for mini-forest and parks
3. To formulate an investment incentive code in the Barangay.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Additional construction of multi-purpose/covered courts	Puroks 1, 2 & 3	Construction of 3 units MPP/courts	2103-2016	1.5M	PDF, CDF	PEO, DPWH
2. Installation of additional powerlines to partially energized puroks	Puroks 1, 2, 3, 5, and 6	Installation of powerlines	2013-2016	500K	NEA, DASUR, ECO	NEA, DASURECO

TOURISM

a. Existing Situation

Barangay Tologan have its Bawing hills potential for tourism development of the barangay overlooking the Padda-Bulatukan river that serves irrigation services to the neighboring municipalities of Matanao, Kiblawan, Bansalan. The hills is ideal for construction of Shrine of the Divine Mercy for worships of catholic believers.

b. Situational Analysis

1. Lack of investment locator for Renewable Energy Project.
2. Lack of Information Education campaign for the panoramic viewing.

c. Goal

To promote and develop the tourist destination areas and ultimately become one of the eco-tourism site in the barangay.

d. Objectives

Specifically, the development of tourism industry in the Barangay is aimed towards:

1. Development of an eco-educational- tourism site in the Barangay.
2. Organization of Barangay Tourism Council.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Organization of Barangay Tourism Council	Purok 2, 3, 4 & 7	Issuance of of Memo Order Creating Brgy Tourism Council	2013- 2017	500K	PDF, MDF, BDF	PLGU, MLGU, BLGU

4. Establishment of Solar Energy Project	Purok 2 and 3	Construction of Solar Energy Project	2013-2017	1.6B	NEA, DASU RECO	Foreign Investors

SOCIAL SECTOR

HEALTH

a. Existing Situation

The Barangay Health Center has one (1) Rural Health Midwife, one (1) Barangay Nutrition Scholar (BNS) and seven (7) Barangay Health Workers who are performing other health services.

b. Situational Analysis

1. Lack of necessary medicines
2. Lack of information on personal hygiene and food preparation.

c. Goal

Provision of essential and quality health service delivery system as a means of achieving a quality life for all people of Mahayahay.

d. Objectives

1. To conduct mothers class regarding personal hygiene and proper food preparation.
2. To reduce mortality rate on pregnant women and children.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Reduction on the incidence of communicable diseases	Purok 1 to 7	Conduct mother's class and weekly consultation of Rural health Physician	2013-2017	50K	PDF MDF BLGU	PSWDO MSWDO Barangay Council
2. Prevention of complications from non-communicable diseases	Purok 1 to 7	Conduct mother's class and weekly consultation of Rural health Physician	2013-2017	50K	PDF MDF BLGU	PSWDO MSWDO Barangay Council

SOCIAL WELFARE

a. Existing Situation

There are different social services with organized organizations in our Barangay such as;

1. Barangay Women Association
2. Barangay Senior Citizens Association
3. Barangay Nutrition Committee
4. Barangay Council for the Protection of Children
5. Barangay Disaster Coordinating Council

b. Situational Analysis

1. Absence of Women and Senior citizens buildings.
2. Lack of disaster preparedness trainings and seminars

c. Goal

To uplift the living conditions of the constituent for them to become self reliant and active participants in local development.

d. Objectives

1. Care, protect and rehabilitate the socially disadvantaged constituents for effective social functioning.
2. To provide social welfare service package to clientele on the basis of their needs.

3. To strengthen the programs towards the total development and protection of the children.
4. To initiate measures that will improve the livelihood and economic condition of the individuals.
5. To enable greater participation of woman in the Barangay development.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Construction of Senior Citizen & Women's Building	Purok 6	Construction of Senior Citizen & Women's Building	2013-2017	500K	PDF	PEO
					MDF	MEO
2. Construction of Building for the handicapped	Purok 6	Construction of Building for the handicapped	2013-2017	300K	PDF	PEO
					MDF	MEO

SPORTS AND RECREATION

a. Existing Situation

The most common sports and recreation facilities existing in the Barangay are the basketball court and covered court.

b. Situational Analysis

1. Lack of sports facilities and equipments
2. Absence of volleyball court
3. Absence of children's playground

c. Goal

Ensure the optimum utilization of the barangay human resources into healthy, dynamic and economically productive constituents through maximized and rationalized use of leisure time and recreation.

d. Objectives

To enable the populace to cope up with the need to maintain a mentally alert and spiritually sound mind, physically healthy bodies and to promote smooth, interpersonal relationship, camaraderie, strong sense of mutual respect , the following objectives are set:

1. To conduct regular sports activities and competition to start from Purok level.
2. To provide basic sports recreation facilities in strategic and appropriate areas in the Barangay.

3. To provide sufficient funding allocation for the acquisition of sports equipment in the Barangay.
4. To minimize or eradicate illegal gambling activities in the Barangay.

e. Programs/Projects/Activities

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Organization of Sports Council	Purok 1 to 7	Issuance of Memorandum Creating Sports Council	2013-2017	50K	PDF MDF BLGU	PEO MEO Barangay Council
2. Road Improvement & upgrading	Purok 1 to 7	Grading and Gravelling of Barangay & Provincial roads	2013-2017	500K	PDF MDF BLGU	PEO MEO Barangay Council
3. Construction of Public Libraries	Purok 6	Construction of Public Libraries	2013-2017	500K	PDF MDF	PEO MEO
4. Repair & Maintenance of Multi-Purpose Pavement	Purok 6	Repair & Rehab. Of Multi-Purpose Pavement	2013-2017	500K	PDF MDF	PEO MEO
5. Construction of Children's Park	Purok 6	Construction of Children's Playground	2013-2017	500K	PDF MDF	PEO MEO

PEACE AND ORDER

a. Existing Situation

Barangay Mahayahay has eight (8) Tanod members. Their main duties and responsibilities are to safeguard and protect the life and properties of the people.

b. Situational Analysis

1. Rampant cases of robbery

c. Goal

To increase the capability of protective service volunteers in the Barangay.

d. Objectives

1. To activate and make functional the existing community volunteer groups.
2. To provide needed facilities and services for community protection.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Conduct Trainings & Seminars to all Peacekeepers	Purok 1 to 7	Trainings & Seminars of all Peacekeepers	2013-2017	50K	PDF MDF BLGU	PLGU, MLGU, BLGU

3. Construction of Tanod Outpost	Purok 6	Construction of Tanod Outpost	2013-2017	100K	PDF MDF	PEO MEO

INFRASTRUCTURE SECTOR

Transportation

a. Existing Situation.

Tologan has a population of 1802 and the most common mode of transportation in our barangay is motorcycle.

Table No. _____ Mode of Transportation
Mahayahay, Hagonoy, Davao del Sur

Type of Vehicle	Utility Type	Total No.
Tricycle	Public	3
Motorcycle	Private	79
Truck	Private	6
Multicab	Private/Public	2

Source: Barangay Survey

b. Situational Analysis

1. Insufficient road network
2. Needs a bridge to link with adjacent barangay
3. Requires upgrading and rehabilitation of existing roads susceptible to erosion and flooding.

c. Goal

To provide effective and efficient transportation support facilities for the over-all development of the Barangay.

d. Objectives

To upgrade, rehabilitate and open new roads to improve road network linking the Barangay.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1.Construction of Mahayahay- Clib bridge	Purok 5	Construction of Bridge	2013-2017	2.5 M	PDF MDF PDF	PEO, MEO
2.Rehab and Repair of Barangay and Provincial Roads	Purok 1 to 7	Rehab & Repair of Barangay Roads	2013-2017	12.5M	MDF	PLGU, MLGU

COMMUNICATION

a. Existing Situation

Commonly used in the barangay now a days in communication is mobile phone of almost three hundred (300) households . Mobile phones are becoming more popular with the presence of SMART and GLOBE cellular sites. However radio and television are broadcast media facilities which have reached our barangay but no stations located in the area but only through radio and TV sets.

b. Situational Analysis

- Partially energized Puroks, due to financial support.

c. Goal

To establish reliable and efficient communication facilities for the entire Barangay.

d. Objectives

To be able to provide Barangay wide access to modern communication and technology towards global competitiveness.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency

Table No. __Number of Connections and Average Water Consumption by Type of Consumer
Tologan, Hagonoy, Davao del Sur

Particulars	Type of Consumer			Total
	Domestic	Commercial	Institutional	
Number of Connections				
Average Water Consumption cu.m				

Source : Barangay Survey, Year __

In Tologan, the water system is operated and managed by Mahayahay Waterworks Association. The water system was through the fund of DAR-ADB. The MAHAWASA serves barangay Mahayahay and part of Lapulabao area with 153 households. The MAHAWASA charge Php 100.00 for the first three (3) cubic meter of water consumed. Presently the said Potable water is under the subsidy of the barangay due to insufficiency of funds for maintenance expenses.

b. Situational Analysis

- Lack of water supply for the households
- MAHAWASA funding is not enough to fund the maintenance cost and no possible expansion.
- Needs of MAHAWASA managerial, financial and Organizational development.
- Needs sourcing of funds for expanding the pipeline.

c. Goal

To ensure the provision of sufficient, safe and potable water supply for the entire and nearby barangay and conducted monthly water sampling.

d. Objectives

To be able to distribute sufficient water supply services within the barangay.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Expansion of Potable Water Supply Lines	Purok 1-7	Purchase of additional PE pipes	2013-2017	500K	PDF, MDF, BLGU	PEO, MEO, Barangay

Electricity	36	9.45
Kerosene	54	14.17
LPG	15	3.94
Charcoal	30	7.87
Wood/Bamboo	246	64.57
TOTAL	381	100

Source: Barangay Survey, Year __

b. Situational Analysis

- The barangay has remote sitios/puroks without electricity.
- Needs financial assistance to install power line and posts
- Needs well and functional streetlights.

c. Goal

To spread the benefits of electricity to the people in the remote barrage so as to induce development take-off as well as attract investors to the Barangay.

d. Objectives

1. To be able to expand the power lateral lines to identified and prioritized puroks in the barangay.
2. To provide electric post and streetlights
3. To maintain and replace damaged units/accessories at the existing streetlights.

e. Program and projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Install, rehab of electric post	Purok 1 to 7	Installation & Rehabilitation of electric post	2013-2017	2.5 M	NEA, MDF, DASUR ECO	NEA, MEO, DASURECO
2. Construction of Solar Energy Projects	Purok 2 & 3	Construction of Solar Energy Projects	2013-2017	1.6 B	NEA DASUR ECO	NEA DASU RECO

Drainage and Sewerage

a. Existing Situation

Drainage facilities of the barangay is along the barangay roads . During the rainy days water from canal will flow to the barangay roads causing damaged of roads.

b. Situational Analysis

- Barangay roads require crowning and motor grading
- Needs annual allocation on roads repair and rehab

c. Goal

To have an efficient drainage system in the barangay.

d. Objectives

- To evaluate the existing drainage system and come up to plan mitigation on drainage problems.
- To formulate and implement proper drainage maintenance system.

e. Programs and Projects

ENVIRONMENTAL SECTOR

Solid Waste Management

a. Existing Situation

In our Barangay the usual solid wastes disposal is dumping in the compost pit and segregation of waste materials such as degradable and bio-degradable. The non-biodegradable/recyclable wastes are separated for they can be sold.

b. Situational Analysis

1. Lack of facility for the toxic and non-degradable which were not sold.
2. Lack of proper waste segregation.
3. No solid waste management plan.

c. Goal

Ensure the proper waste disposal management system and regular garbage collection.

d. Objectives

1. To formulate waste management plan and implement proper segregation and disposal

e. Programs and Projects.

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency

RIVERBANK PROTECTION AND CONTROL

a. Existing Situation

Barangay Tologan, is prone to flooding during rainy season. Some of the crops planted near the riverbanks are washed away.

b. Situational Analysis

- No trees are planted along the river banks which caused the scouring, erosion and silting of the river.

c. Goal

Conduct information campaign and enact legislation for the proper flood control through planting trees along the riverbanks.

d. Objectives

To educate the people living near the river on the proper use of lands and planting trees along the riverbanks to control occurrence of flood.

e. Programs and Projects

PPAs	Location	Description	Time Frame	Cost	Fund Source	Implementing Agency
1. Riverbank Control	Purok 5 to 6	Planting of Trees along the riverbanks	2013-2017	50K	PDF, MDF	PEO MEO

CHAPTER 4

2.7 Barangay Local Government Profile

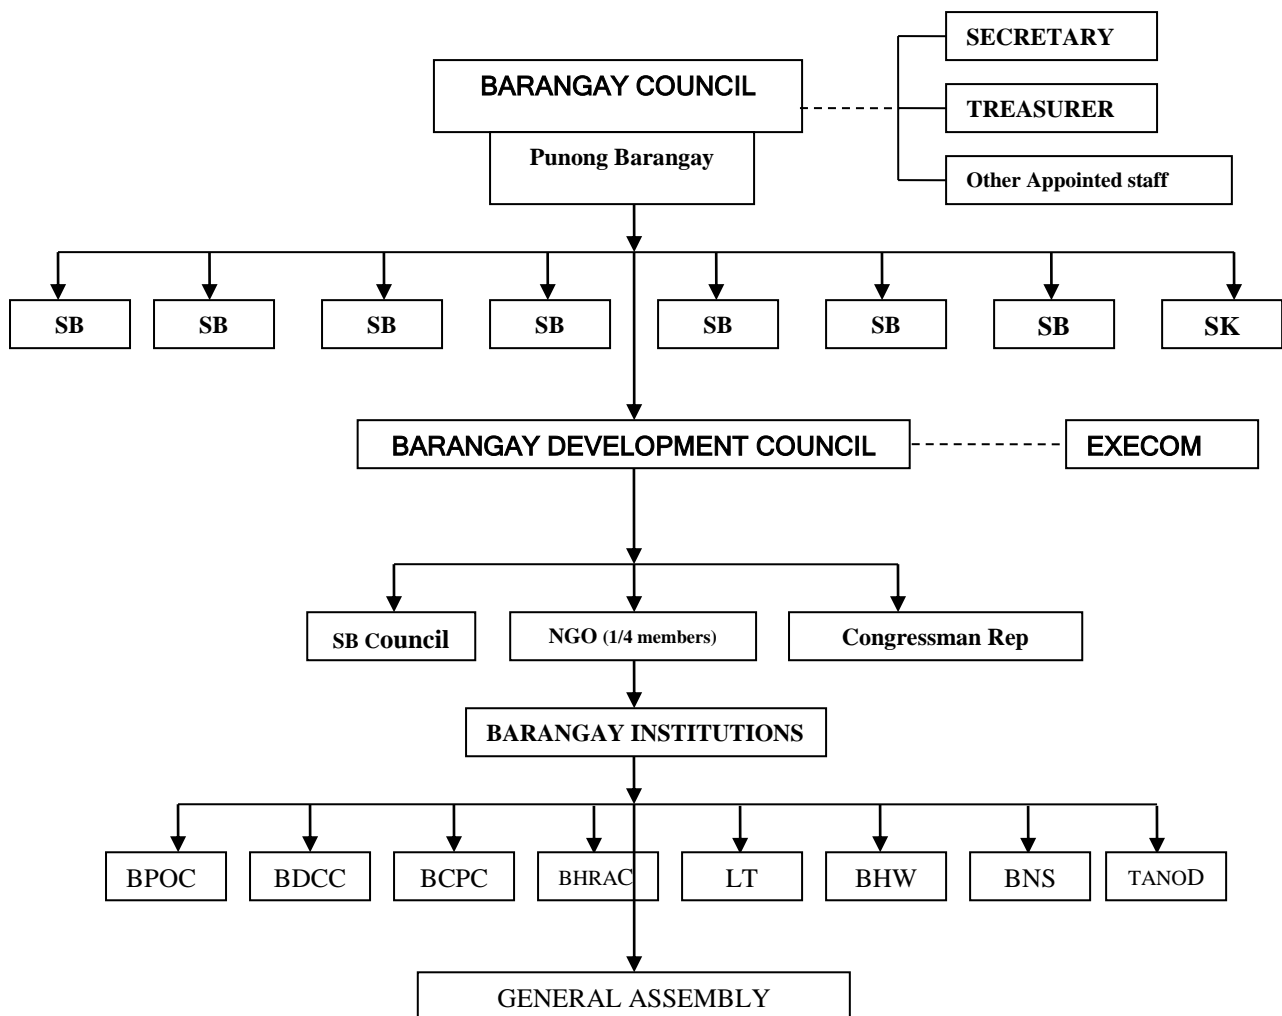

1.1 Development Administration

BARANGAY COUNCIL

The barangay being the basic political unit, serves as the primary planning and implementing unit of government policies, plans, programs and activities in the community, and as a venue wherein the collective view of the people may be expressed and considered, and where disputes may be amicably settled.

The organizational structure of the Barangay Government of Tologan places the punong barangay at the helm of local government leadership. Under the punong barangay are the members of Sangguniang barangay and SK chairman who serves as the local legislative body. Under the supervision of the punong barangay are the barangay secretary, treasurer and utility worker.

Organization Rating Matrix of Barangay Officials

DUTIES AND FUNCTIONS OF THE BARANGAY AND APPOINTED OFFICIALS

- | | |
|-----------------------------|---|
| Punong Barangay | - General supervision, control and implementation of programs and activities; act as the presiding officer during of the session of the barangay council. |
| Sangguniang Barangay | - Legislative function and related services. |
| Treasurer | - Collection and disbursement of funds and custodian of barangay properties. |
| Secretary | - Secretariat to the barangay council and keeper of records of the barangay. |

Barangay Development Council

Section 106 of RA 7160 provides that each barangay shall have multi-sector development plan to be initiated by the barangay council for the purpose of setting direction of economic and social development and coordinating development efforts within its territorial jurisdiction.

Administration of Justice

To carry out the barangay justice system, the Lupong Tagapamayapa was organized in the barangay which is composed of the Punong Barangay as Chairman and 15 members.

The lupon exercises administrative supervision over the conciliation of parties in dispute. Lupon meets regularly to provide forum to have an exchange of ideas among the members and the public in matters relevant to amicable settlement of the disputes. There are 15 cases indorsed to lupon and 85% were settled amicably.

Public Order and Safety

There are 20 barangay tanods in Barangay Tologan , all receiving honorarium from the barangay. Its duty and responsibility is to safeguard and protect the life and properties of the barangay people.

CVO members had attended skills training conducted by the provincial government in coordination with the DILG and PNP has to learn new strategies of crime prevention and awareness in anti-emergency efforts of the government.

Performance of the Barangay Officials

The barangay has a satisfactory rating in almost all items in administration of basic services to the different sectors. However, it got low rating in the performance of the barangay development council particularly during conduct of regular meetings for they meet only as the need arises. Likewise, they got low rating in the conduct of participatory monitoring and evaluation because the system is not yet institutionalized in the barangay. The barangay officials got outstanding rating in the conduct of general assembly, hearing and investigation and in the making and submission of reports.

CHAPTER 3 - SITUATION ANALYSIS

It analyzes the situation of the barangay and identify the land issues and conflicts, the sectoral needs, issues and concerns to be addressed, opportunities and potentials that can be tapped, causes & effects of the core problems, the poverty situation and provided revenue generation and allocation.

3.1 LAND USE ANALYSIS

- Existing Land Use

The total land area of Barangay Tologan which is _____, the existing land use classification of the barangay shows that a large part is for agriculture covering an area of 552.00 hectares. This indicates of 90.43% is used for agricultural production.

Land Uses	Area (Hectares)	Percentage to Total Area
1. Agriculture		
2. Built-up		
3. Roads		
4. River		
TOTAL		

- Road Network

The present land area covering the road network of the barangay stands at _____ has. Or _____ % of the total land area. However, the poor road condition hinders the smooth and fast delivery of farm products to the market. As a result, the economic growth of the locality is hampered due to this fact. Some barangay roads are impassable during rainy season, thus, rehabilitation, repair and maintenance is needed to provide access roads to the market (Figure 1 Road Network Road Map)

Name of Road	Total Length (km)
1.	
2.	
3.	
4.	
5.	
6.	
7.	
8.	
9.	

TOTAL	
--------------	--

Problems & Issues:

- Roads are flooded during rainy season
- Some part of barangay roads are impassable during wet season
- Roads are ungraveled
- Inadequate farm-to-market roads.

- Water Bodies

The water bodies particularly the river in the barangay occupy an area of 5.00 has. Or 0.82% of the total land area. There is only one (1) river that traverse the barangay. (Figure 2 Water Bodies Map).

Types of water bodies	Names
1. River	Padada (Guihing)

- **Problems / Issues:**

- River scouring of bank if cannot regulate & control the sand & gravel extraction.
- Insufficient replenishment of sand & gravel materials.
- Occurrence of flash floods
- Damage to crops

- Infrastructure and Settlement

The infrastructure and settlement or the built-up area comprises of 40.00 has. Or 6.55% of the total land area. There are structures like houses, purok centers, chapels, school building, solar drier which are constructed within this area (Figure 3 Infrastructure/Settlements Map).

Problems/Issues

- There are parts of the barangay will not fully energized.
- Lack of potable water
- * There are households living in makeshifts houses
- All public buildings needs to be rehabilitate.
- Lack of access roads to remote areas.

- Land Cover

Cash crops occupy the large area of agricultural land with _____ hectares out of _____ has. Then followed by the permanent crops which uses 89.00 hectares and mixed crops with 45 has. and wetlands with 1.5 has. and the last is the others with has 10.50 has. which includes all types of crops that

the constituents wanted to plant in a certain area. The high cost of farm inputs such as fertilizers and pesticides which the farmers could hardly afford to buy and resulted to low production makes the farmers still living below poverty line of lifestyle. In addition to that the poor road conditions especially during rainy season has caused also financial hardship to farmers to transport their farm production to the market. Marketing linkages and credit facilities with minimal interest or free-interest are also needed to alleviate the living condition of the farmers. (Figure 4 Land Cover/Vegetation Map).

Types of Land Cover

Types of Land Cover	Area (Hectares)
1. Cash Crops	
2. Permanent Crops	
3. Mixed crops	
4. Wetland	
5. Others	
TOTAL	

Problems/Issues:

- Lack of training on proper farming methods
- High cost of farm inputs
- Difficulty of bringing the farm products to the market due to poor condition of the road.

- **Protection/Riparian Zone**

Extraction of sand and gravel materials downstream by concessionaires should be controlled or regulated & confined at the center of the river channel to maintain the depth of the river to avoid deflection from the course of the flow towards the banks which could damaged the adjoining farmlands. (Figure 5 Protection Map).

- **Erosion/Flood Hazard**

The extent of riverbank caving and bank erosion that destroyed adjacent farmland is located roughly 2.0 kms. Upstream along boundary of Tologan-Paligue and five (5) kilometers from the Padada (Guihing) Bridge where the deflection of river course is very eminent.

During heavy rainy season the erosion and flood areas were observed in Purok 1, 7, 4 & Barangay site. Roads becoming muddy and not passable for travelers were mitigated by planting trees along the roads and periodic crowning by motorgrader funded by Barangay Dev't. Fund and Farm-to-Market Roads Project.

Joint Barangay Ordinances were enacted to implement Riverbank Protection Program through Bamboo or Tree Planting.

- **Land Use Conflict**

Households are present erected not on their owned-lot or as squatters but there are no recorded cases of disputes due to amicable settlements with the land owners.

In the territorial jurisdiction of the barangay, this is still referred with the Municipal Assessor in order to regulate the tax assessment and in the proper disposition of the tax revenues. Adjacent barangays are Paligue, Hagonoy Crossing and Guihing.

ROAD NETWORK

Types of Road	Length (kms.)	Specific Names	Specific description (concrete, asphalts, graveled, unpaved)	Recent Physical Condition	Importance of the Road	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Brgy. Road			Graveled Rd.	Passable but some portions need graveling	Necessary for transportation	Passable but muddy during rainy season	The road condition may be damaged	Needs maintenance for graveling of the road
Brgy. Road			Graveled Rd.	Passable during dry season but muddy on wet season	The road is necessary in transporting products	Passable but very muddy during rainy season	Damages and worsens road condition	Needs Grader for graveling of the road
Brgy. Road			Graveled Rd.	Passable Road	It is the major road for transportation to Poblacion	Passable but dilapidated	Road condition maybe damaged	Needs repair and maintenance
Brgy. Road			Graveled Rd.	Passable when the road is dry	Transport of products from remote area	Passable during dry season	Worsens road condition	Needs repair & maintenance
Brgy. Road			Graveled Rd.	Passable but muddy during rainy season	Necessary for transportation	Passable but dilapidated	Damages and worsen road condition	Needs grader for graveling the road
Brgy. Road			Graveled Rd.	Passable but some portions need graveling	Transport of products from remote area	Passable but very muddy during rainy season	Worsens road condition	Needs repair & maintenance
Brgy. Road			Graveled Rd.	Passable during dry season	Necessary for transportation	Passable but dilapidated	Road condition maybe damaged	Needs maintenance for graveling the road
Brgy. Road			Graveled Rd.	Passable but muddy during rainy season	Necessary for transporting products	Ungraveled road	Worsens road condition	Needs repair & maintenance
Brgy. Road			Graveled Road	Passable during dry season	Transport of products from remote areas	Ungraveled	Road condition maybe damaged	Needs repair & maintenance

WATER BODIES

Types of Water Bodies	Distance or Width	Specific Names (Ngalan)	Importance of water resources to households	Physical Condition	Problems/Issues affecting water bodies	Possible effects of the Problem on Water bodies	Suggestions/Recommendation
				Permanent supply of water during dry season	River scouring of bank if cannot regulate & control the sand & gravel extraction	Insufficient replenishment of sand & gravel materials, occurrence of flash floods; damage to crops.	<ul style="list-style-type: none"> - Regulate and control of sand & gravel quarrying and cause the stoppage of concessions. - Extraction of sand & gravel materials downstream by concessionaires should be controlled or regulated & confined at the center of the river channel to maintain the depth of the river to avoid deflection from the course of the flow towards the banks which could damaged the adjoining farmlands. - SAG proponent should be required to execute Accountability Statement to guarantee or answer & safeguard the possible negative environmental impact generated by quarrying operation.

INFRASTRUCTURE/SETTLEMENTS

Types of Infra	Names/Types	Specific Description (Qty. Size)	Present Physical Condition	Importance	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Barangay Hall	Ordinary Type w/session hall	15mts. X 15mts.	Good	Sessions, meetings & transactions	Some parts of the building are dilapidated	Damages the building	Needs maintenance and repair
Health & Day Care Center	Ordinary Type Ordinary Type	15 x 15 mts. 15 x 15 mts.	Good	Health, nutrition & kinder/nursery classes	Some parts need for rehabilitation		
Purok Center	All Purok	8 x 8 ft.	Currently used but some are dilapidated	Purok meetings	No funds for repair & maintenance	Could be in state of disrepair or destruction	Request funding though the barangay council or solicit amount for regular repair and maintenance
Settlements	Settlements		- Concrete - Wooden - Makeshift - Semi-concrete	For Shelter	Made of light materials under repair	Could soon be homeless	Needs improvement & repair
School Building		10 classrooms	Good	Source of basic education	Classrooms must be repaired	Could not be used soon	Needs periodic repair
Electricity	DASURECO	-	Good	- Save more time & money - Improve the standard of living	Not all areas are energized.	Still uses kerosene Gas for lighting	Expansion to all puroks
Multi Purpose Pavement	Solar Dryer	90 mts.	Good	- Drying for various products	Parts of it cracks concrete	Could save the farmers	Needs Maintenance
Bridge				- Passable to all constituents	Scouring of structure	Could not be used soon	Operation & Maintenance buget annually to follow the MOA for ten yrs.

LAND COVER/VEGETATION

Existing Land Cover	Estimated Land Area (In Has.)	Physical Condition	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Total Land Are					
Cash Crop		Planted with rice, corn and vegetable	Some crops do not yields good harvest due to infestation of disease and insufficient water supply from the creeks	Low income resulting in non-payment of credit to financiers	Refer to technician for proper training and recommended technology to be used
Permanent Crops		Others grow favorably but some crops need care and maintenance	Difficulty in carrying products to the main road/market	Double hauling of products in some remote areas	Repair/rehabilitate impassable roads
Mixed Crops		Planted with mixed crops	Some crops could not survive due to climate change	Low Income	Right training and technology

PROTECTION

Existing Land Cover	Legal Basis (Name of law ordinance)	Specific Location (Sitios Purok)	Estimated land Area (In Has.)	Present Land Use	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Riparian Zone	Refer to Municipal Assessor	Purok # 1	2.5 Has.	There are households settling along river	Landslide, soil erosion and flood occur in the river	River Scouring of bank if can't regulate & control the sand & gravel extraction	Regulate & control of sand & gravel quarrying and cause the stoppage of concessions.

EROSION/FLOOD HAZARD

Type of erosion	Estimated Land area (Has.)	Location (Sitios Purok)	Specific Manifestation of soil erosion	Effects of soil erosion in the area	Possible effects of the Problem	Suggestions/Recommendation
Slight flood			During heavy rainy season the erosion & floody areas were observed.	Crops, livestock & properties are damaged	Roads becoming muddy & not passable for travelers.	Massive tree planting along the roads and periodic crowning by motorgrader.

LAND USE CONFLICT

Existing Land Cover	Estimated Land Area (Has)	Location (Purok)	Present Physical Condition	Problems Encountered, Issues & Concerns	Possible Effect of the Problem	Suggestions/Recommendations
Planted with Cash Crops	5 has.	Purok 7	Suitable for agricultural crops	Households are present erected not on their owned-lot or squatters.	Identity of households occupying conflict areas particularly during registration and land ownership and other similar problems to be encountered in the future.	To avoid confusion as to when the area being utilize by the landowner the occupants pre-caution not to build houses made of strong materials.
Settlements Area along Bulatukan river	2 Has.	Purok 1	Increasing number of households/squatters building temporary shelters on the road-right-of way	There are houses along the road-right-of way which could be wiped away during floods	Dangerous to transport vehicles passing the Bulatukan river during rainy season.	Find relocation areas to stubborn households living within the road-right-of way; advise them to transfer to higher grounds for the safety of their lives or force eviction therefore.

ANALYSIS BY SECTOR SUMMARY ON SITUATIONAL ANALYSIS

Sector	Development Potentials	Problems and Issues	Constraints	Opportunities
Economic	<p>Agriculture</p> <p>a. Strategic crop dev't. zone</p> <p>1. Production of rice, corn, coconut and vegetable</p> <p>2. Vermicomposting</p> <p>b. Strategic Livestock Development Zone</p> <p>1. Production of large & small animals & upgrade animals</p> <p>c. Credit & Marketing Dev't. Zone</p> <p>1. Strengthen Malabang Cooperative and continuous capital build-up</p> <p>d. Environmental Management</p>	<p>Poor farming technology and use of inorganic fertilizers</p> <p>Low population of livestock in a vast pastoral lands</p> <p>Not functioning and unstable condition of existing cooperative</p> <p>Floods along the creeks</p>	<p>Increase production and food security with low input</p> <p>Increase animal production</p> <p>Assistance to Brgy. Food Terminal Market and Savings Mobilization program</p> <p>Trees protects the environment, prevent floods</p>	<p>Avail of technical supervision from DA</p> <p>Avail of animal dispersal from the government</p> <p>Promote development of cooperatives</p> <p>Prevention of flood</p>
Social	Water Facilities	Lack of distribution of jetmatic	Households are provided water facilities	Avail of government financing for water utilities program
Infrastructure	<p>1. Concreting, rehabilitation & maintenance of Farm-to-Market roads</p> <p>2. Electricity</p> <p>3. Government Facilities</p>	<p>Impassable during rainy season due to dilapidated road condition and floodings.</p> <p>No distribution lines to remote sitios</p> <p>Lack of mini-gym, mobile emergency vehicle</p>	<p>Fast and easy to transport of farm products and in human loads</p> <p>Households are provided electricity.</p> <p>Sports & meeting facilities are provided, stand-by vehicle for emergency calls</p>	<p>Avail of government loans and other infrastructure projects</p> <p>Expansion program of DASURECO</p> <p>Gym and ambulance are most common programs of local political leaders</p>

Local Governance	Barangay Revenues	Poor collection of taxes	Increase Income	Honorarium/Additional benefits for barangay council members and leaders
Land Use and Environment	Undeveloped forested area of 1 hectare.	Lack of access roads, uncultivated lands	Lands are developed and its utilization are maximized	Avail of the benefits of CARP laws

The Situational Analysis Matrix

Development Parameters	Issues that Matter	Existing Condition	Trends	Problems/Causes	Implications	Strategic Interventions
Environment	Creeks	Protected area and Riparian	Gradual landslides	Erosion, Floods during heavy rains	Destruction of crops and properties	Households conduct tree-planting along the creek construction of dikes.
Electricity		Remote areas without electricity	Needs electricity from the source	Lack of distribution lines	Crimes are committed	DASURECO to provide additional power distribution lines
Water		Remote areas without potable water	Needs water from the source	Lack of extension pipes from the source	No potable water	Municipal Government to provide jetmatic pipes for the constituents.
Literacy	All Purok	Many children are not sent to school	Lack of skills and knowledge resulting to low income of households	Illiteracy Problem	Not enough income because of lack of knowledge	Attend livelihood seminars/trainings conducted by the government or engage in poultry livestock project to augment income.

CHAPTER 4 - DEVELOPMENT PLAN

DEVELOPMENT FRAMEWORK

VISION: Panglantaw

MISSION:

BARANGAY POVERTY REDUCTION AGENDA (TARGETS)

Core Poverty Indicators	Baseline Data	Poverty Reduction Targets
Lack of Income	Means of living of households provides only meager income	Engage in livelihood projects with non-financial resources
Many are unemployed	The income not enough to cover up the basic daily needs.	Find ways to look for a job anywhere just to augment income
No land of his own, only laborer	No other livelihood skills except as laborer	Encourage households to attend livelihood project seminars undertaken in the barangay to gain knowledge
Unable to send children to school	Means of living of households provided only meager income	Encourage households to enroll their children to government institution or avail of scholarship program
Lack of Potable Water	Lack of budget allocated intended for water facilities due to low income of the bgry.	Request assistance from Mun. Government to allocate pipes for the installation of jetmatic in the remote area of the barangay.
Dilapidated Roads	Transporting of goods is hampered	Request financial assistance from government for repair and maintenance of barangay roads
Households living on the road-right-of way	Only squatters of land, no house and lot to dwell	Find relocation/resettlement areas
Lack of Knowledge	Many youths are unschooled	Encourage the youth to enroll in non-formal education or attend livelihood trainings/seminars
Lack of farming techniques	Many farmers are still using the old system of farming method due to lack of training and capital	Provide demonstration farm and right farming technologies

Lack of program for farmers	Implementation of government plans and programs to households is greatly affected because of lack of it.	Request assistance for the construction of the necessary government facilities
Lack of Facilities	Needed additional facilities for the increasing number of population	Appropriate amount for construction of facilities from barangay funds or from other sources.
Lack of monitoring and evaluation	No auditing conducted from previous projects up to the present	Require regular inventory of all properties and inspect all implemented projects of the barangay
Cannot express oneself	Typical problem common in the barangay	Raise their level of awareness and motivation
Gambling	No stable jobs	Engage in poultry/livestock raising and other income-generating projects with lesser capitalization
Unable to pay debt	No stable jobs	Find job opportunities elsewhere
