

# Chapter 1 - INTRODUCTION

## **Rationale :**

Local government units are mandated to provide basic services to promote the overall development of the community and its people. However, it is a reality that most rural communities do not have the financial capability to implement the identified demand driven programs and projects. Hence, the need to prioritize the projects in order to maximize the utilization of limited funds.

## **Objective of the Plan**

The plan is primarily aimed at presenting and appreciating the existing situation by the barangay people themselves, analyzing the situation using standards and other means of measurement to come up with identification of needs and corresponding interventions.

## **Scope of the Plan**

The scope and coverage of the plan is limited to the Barangay of Lanuro , Hagonoy, Davao del Sur for the period of five (5) years. The plan is composed of two (2) parts, the barangay profile which is the result of the participatory rural appraisal which defines the collective ideas of the residents in terms of the history, culture and traditions, and resources as well as their strengths, weaknesses, opportunities and threats. The second part is the Barangay Development Plan that starts with the expression of the collective vision and mission and presentation of their sectoral programs and projects.

## **Planning Methodology**

The participatory approach in plan formulation was used giving weight to the data and experiences shared by the workshop participants. The data and information were provided by the people themselves and processed using the PRA tools. However inspite of this, we still cannot avoid mistakes and deficiencies.

This effort is just the beginning of an organized and orderly journey towards development.

# Chapter 2 - BARANGAY PROFILE

## 2.1 Historical Background

Before San Guillermo is commonly known as Malabang Barrio Site with a townsite reservation being surveyed in the year 1934 by Sta. Cruz Cadastral survey. Based on some inquiries, B'laan tribes was the first people in this barangay and they depend their basic needs in the big forest before. They did not cultivate so much the land but when Visayan settlers came, most of the B'laan moved to other places but some of them got married t some visayan settlers.

Month of April 1960, the name Malabang Barrio site was transferred to San Guillermo which was patterned to the patron of Catholic Chapel existing at the time. This changes was made because there is another barangay named Malabang west which is also belong to the Municipality of Hagonoy.

## 2.2 Demographic Profile

**Table 1. Population size, growth and density**

Total Population	843
Total No. Of HH	187
Average HH Size	5
Density	
Growth Rate	

Source BNS

Population size, growth rate, average family size as of the latest NSO population census showed that Barangay San Guillermo has a total of Nine Hundred sixty four (843) population, with a total household of (187 ) and it has an average of \_\_\_\_\_ % annually. (see table 1 above)

The low growth rate may be attributed to the limited job opportunities open to available labor force. Hence, skilled workers and college graduate seek for greener pastures outside of the barangay.

**Table 2. Distribution of Population**

Sitio Name	Population		No. of HH
	Male	Female	
Purok 1			
Purok 2			
Purok 3			
Purok 4			

Purok 5			
Purok 6			
Purok 7			
Purok 8			
Purok 9			
Purok 10			

Source : Barangay Survey

The population and households are distributed in the \_\_\_\_ (\_\_\_\_) puroks with most households located in puroks \_\_\_\_ and \_\_\_\_\_. The least number of households reside in purok \_\_\_\_\_. The concentration of households in puroks \_\_\_\_ and \_\_\_\_ is attributed to its accessibility to institutional facilities, such as the Barangay Hall, Elementary school, Barangay Health Station and Chapel as well as the Barangay site where the households were relocated. (see table - 2 above)

**Table 3. Age and Sex Distribution**

Age Group According to Sex	Gender	
	Male	Female
Children 0 - 5		
Children 6 - 12		
Children 13 - 17		
Adult 18 - 35		
Adult 36 - 50		
Adult 51 - 65		
Adult 66 yrs old & above		

Source : Barangay Survey

The barangay population is predominantly composed of young people aged 18-35 with males slightly more than females. (see table - 3 above) . It shows that the Barangay has to provide more services and facilities intended for young people.

**Table 4. Marital Status**

Civil Status (ex. Single, married, etc)	Population
Single	
Married	
Widow	
Widower	

Source: Barangay Survey

More single or unmarried (\_\_\_\_) persons are identified in this barangay compared to married persons (\_\_\_\_). There are no reported live-in partners and have \_\_\_\_ widows and \_\_\_\_ are widowers.

**Table 5. Population by Mother Tongue**

Types of Dialect (ex. Cebuano, Tagalog, Ilonggo, etc.)	Population
Cebuano	
K'lagan	
Ilongo	
Waray	

Source: Barangay Survey

The population of Barangay New Quezon is homogeneous as majority of the population are Visayans with more than eighty percent (80%) speaking the Cebuano dialect followed by the Calagans, Ilongos, and Warays. (see table - 5 above)

**Table 6. Ethnic Groups**

Types of Ethnic Groups (ex. Bagobo, manobo, etc)	Population
K'lagan	
B'laan	

Source : Barangay Survey

The original settlers of the Barangay were composed of the K'lagans and the muslims. When the Visayans arrived they acquired the lands from the natives through barter with carabaos, coffee, sugar and tobacco. The Visayans cleared and cultivated the area pushing the natives farther into hinterlands of \_\_\_\_\_ and \_\_\_\_\_. Today the number of indigenous people are dwindling and they compose the minority group in the community (see table - 6 above)

**Table 7. Religious Affiliation**

Types of Religion (ex. Islam, etc.)	Population
Roman Catholic	
Baptist	
Islam	
Methodist	
Assembly of God	
Camacop	

Source : Barangay Survey

Almost ninety percent (90%) of the population embrace the catholic faith. The remaining ten (10%) percent belong to various religious denominations. (see table-7 above)

**Table 8. Labor Force/Employment**

Types of Employment	Population
Driver	
Fisherman	
Tuba Gatherer(Mananggiti)	
Carpenter	
Laborer	

Mason	
Manicurist	

Source : Barangay Survey

Most of the population in the Barangay are farm and \_\_\_\_\_. The others engaged in \_\_\_\_\_ vocations either in part-time or full time basis particularly during Saturdays & Sundays. (see table - 8 above)

Table 9. School Age Population Distribution

Classification	No.
06-14 years old (elementary school-going age)	
13-16 years old ( secondary school-going age)	
17-21 years old (tertiary school-going age)	

Source: Barangay Survey

As shown in the Table - 9 above, a greater number of children of school-going age are out-of-school, specially in the secondary and tertiary levels of education. The reasons may be attributed to poverty, lack of interest, and parental encouragement. During weather in good condition the parents forced their children to skip classes to help them in fishing chores to augment family income. With long absences in school they become disinterested and ultimately drop from school. The situation added to the problem of child-labor and abuse the rights of the children

## 2.3 BIO-PHYSICAL CHARACTERISTICS

### A. Natural Features

#### i) Geographical Location

a. Distance from Poblacion: \_\_\_ km.

#### b. Neighboring Boundaries

b.1 North \_\_\_\_\_  
 b.2 East \_\_\_\_\_  
 b.3 West \_\_\_\_\_  
 b.4 South \_\_\_\_\_

ii) Land Area: 267 has.

### Elevation, Topography and Slope Characteristics (especially for NRM areas)

The topography of the Barangay is plain. From the Poblacion going to the area is considered as plain.

**Table 10. Surface Drainage**

<b>NAMES OF MAJOR WATER BODIES WITHIN THE BARANGAY</b>	<b>PHYSICAL CONDITION</b>

Source : MPDO

**a) Climate and Rainfall:**

**Rainfall Temperature**

The prevailing climate in the municipality is characterized by an even distribution of wet and dry seasons. Major seasonal variation are not so pronounced. The wet months start usually from June and end in October, while from November to May are generally dry seasons.

**Table 11. Soil Type**

<b>SOIL TYPE NAME</b>	<b>AREA</b>
	<b>267 has.</b>

The soil in Barangay New Quezon is generally described as hilly . The very common soils is the Matina Clay Loam because of its closeness to the hill.

**Table 12. Land Capability**

<b>CLASSIFICATION</b>	<b>AREA</b>
Soil depth is ranging from deep to moderately deep and from slow to moderately rapid permeability	<b>267 Has.</b>

**Table 13. Land Suitability**

<b>CLASSIFICATION</b>	<b>AREA</b>
Can be cultivated safely but needs drainage in addition to good management practices to maintain productivity; proper drainage & irrigation system are recommended	<b>267 Has.</b>

**b.) Water Bodies**

The \_\_\_\_\_ creek is the major link of \_\_\_\_\_ to \_\_\_\_\_, Hagonoy, Davao del Sur. This river also locates upstream the NIA Irrigation Dam that will regulate water supply for the irrigated areas for the sugarcane and banana farms.

Constant flooding and absence of flood controls structures caused the widening of the banks of the rivers. This resulted to stretching of precious lands of about several kilometers along the river.

**c). Land Cover**

**Table 14. Land Cover**

CLASSIFICATION	ITEM	AREA
FORESTLANDS	Total land area of existing natural forests	None
	Total land area of existing brush lands/fallow lands	None
	Total land area of existing plantation forests	None
AGRICULTURAL LANDS	Total land area of existing agricultural lands planted with cash crops	
	Total land area of existing agricultural lands planted with permanent crops	
	Total land area of existing agricultural lands planted with mixed crops	
GRASSLANDS	Total land area of existing grasslands	None
WETLANDS	Total land area of existing wetlands (swamps, etc.)	None
BARREN OR DENUDED LANDS	Total land area of existing barrenlands (no vegetative cover)	None
OTHERS		
TOTAL		

Source : MPDO

There is an existing agricultural land planted with cash crops covering an area of \_\_\_\_\_ hectares, permanent crops with \_\_\_\_\_ hectares and mixed crops of \_\_\_\_\_ hectares.

**2.4 ECONOMIC PROFILE**

---

**2.4.1 Agriculture**

**1. Agricultural Land Use**

**Table 15. Agricultural Land Use**

Commodity	Area Planted	Potential Area
Corn		

Rice		
Sugarcane		
Coconuts		
Banana		
Others Crops		
TOTAL		

Source: DA

An area of 167 hectares or 70 % of the total land area is classified for agricultural land use. The major crops grown are Corn, Coconuts, Sugarcane, Banana and Rice. The areas devoted to the production of corn and coconuts are to be maintained, while the existing areas cultivated to lowland palay, sugarcane and export bananas can still be expanded to maximize agricultural land resource utilization. (see table - 15 , above)

A total of \_\_\_\_\_ hectares is presently devoted to Strategic Agriculture and Fishery Development Zone (SAFDZ).

In order to fully develop the agricultural land resources, the following issues and problems have to be resolved and addressed.

1. Insufficiency of irrigation water to supply the needs of agricultural and other commercial crops.
2. Improvement and maintenance of farm to market roads.
3. Provision of Pre and Post harvest facilities.
4. Lack of marketing network and linkages
5. High cost of farm inputs.
6. Weak cooperative organizations.

**Table 16. Strategies Agriculture and Fishery Development Zone (SAFDZ)**

Source : DA

## 2. Sustainability of Agricultural Land Use

### 2.1. Current farmers situation:

- 2.1.1. Massive use of inorganic fertilizer and chemical
- 2.1.2. More on monocropping
- 2.1.3 Farmers technology is commonly practiced
- 2.1.4 Farmers majority using inbred rice and Corn seed
- 2.1.5 Intensify the adoption of cross breed animal.

### 2.2 Proposed Strategies to sustain land use

- 2.2.1 Use of Balance Fertilizer (organic fertilizer)

## 2.2.2. Adoption of Multi-inorganic farming system.

### 3. Production by Type of Crops

**Table 17. Major Crops, Area Planted and Production**

Crop	Area Planted (Ha.)	Effective Area	Area Harvested (Ha.)	Annual Production (MT)	Average Yield/Ha (MT)
Corn					
Rice					
HVCC					
Coconut					
Banana					
Sugarcane					
others					

Source: AT

#### Technology used in each crop

#### 1. CORN - planted as mono-crops, use of traditional varieties.

Issues and Problems:

- Low Production and Low income due to mono-cropping farming technology.

Proposed Strategies to address the situation:

- Adopting a corn-based inter-cropping system.
- Use of organic fertilizer through integrated Nutrient Management Technology.

#### 2. HVCC - Coconut, Banana, Sugarcane (Existing HVCC in the Brgy.)

- Common Technology - mixed cropping

Issues and Problem:

- Low production due to mixed cropping farming practice wherein the crops , compete against soil nutrient, water and sunlight.

- Proposed:

- Practice Sustainable Agriculture Farming using organic fertilizer to optimize production
- Multi Storey and Integrated Farming system.

#### 3. RICE - planting only (2) times/year and w/o crops planted during fallow period (March-May).

- Practicing calendar chemical spraying & heavy usage of inorganic fertilizer.

Issues and Problems:

- Low income due to the present cropping pattern.
- High cost of products

Proposed Strategies to address the situation:

- Utilizing the fallow period (March-May) by planting a short duration crops.

## 4. Cropping Pattern and Labor Requirements

### 4.1 Cropping Pattern (Rice and Corn)

Palay is produced twice a year, the *"PANUIG"* which is the wet season and *"PANGULILANG"* which is the dry season.

During the dry season , land preparation starts in December, planting in January, February and maintenance in April and March , and harvest time in April. *"PANUIG"* land preparation starts in June, planting is done in June care and maintenance in August - September. Harvest time starts October. The month between end of the harvest and beginning of land preparation which are the months of May and November are utilized for the planting of water melon or mungo.

Average yield is also dependent on the availability of inputs on the right time application which is a consequence of high and increasing cost.

To bring down the cost of inputs, farmers should be trained to advocate and practice the Integrated Pest Management, encourage the use of Organic Fertilizers.

While farmers produce a high average yield, they only earn a negligible net profit.

Source: Barangay

#### 4.3 Occurrence of Pests and Diseases

Common pests attacking the palay crops are ; rodents, snails, and harmful insects(blackbug , “piangaw”) and others that cause tungro and other infestations. An agricultural technician is assigned in the barangay to assist the farmers.

## 2. Livestock and Poultry

Table 20. Household Raising Livestock by Purok

Livestock	P1	P2	P3	P4	P5	P6	P7	P8	P9	P10	TOTAL

Table 21. Household Raising Poultry by Purok

Poultry	P1	P2	P3	P4	P5	P6	P7	P8	P9	P10	Total
Chicken											
Meat											
Laying											

Source: Barangay Survey

Livestock and poultry raising is more of a backyard type and usually for domestic consumption purposes. The poultry and livestock are disposed of during emergency cases usually for medical and educational needs of the family members. Poultry and livestock are also raised and domesticated for butchering during celebration of patronal fiestas and family events such as weddings, birthdays, school graduations and deaths, including anniversaries which are annually observed by the residents.

Like other agricultural products the bulk of animal and poultry products are sold to agents (buyers) coming from outside of the barangay and municipality.

#### Issues and Concerns:

- Production level is minimal due to high cost of commercial feeds. Feeds commonly used in home-made with no formulation analysis in protein content. Housing are built mostly of light materials. However, most chicken have no proper houses to live in only big trees are being utilized.
- Livestock and poultry raising help farmers augment their income thru backyard raising.

- Cows and carabaos are used as draft working for additional income in farming activities.

### Problems & Issues:

- High cost of feeds
- High cost of hybrid livestock
- Inadequate livestock technology
- Lack of working animals

### 3. Fisheries

An area of fifty-eight (58) hectares have been developed as fishponds along the shores of the barangay owned by private companies. Some marginal fishermen also owns small ponds nearby. Annual production is estimated at 2.2 metric tons.

About one hundred twenty three (123) or thirty (30%) percent of the household are dependent on off-shore fishing. The common species of fish abundant in the area various fries and there are a number of shrimps and crabs.

Fishing gears that are mostly used by fisherman are the beach seine, gill net, skimming net, hand line, tune hand line, fish pot and multiple hand line.

**Table No. 22 Sea/Rivers/Creeks and Distance from Barangay Proper**

Source: DA

### 3.1 Food Supply and Requirement

With an average yield of 100 cavans per hectare and 5 hectares effective planted to rice, it is estimated to yield a gross of 80 tons of raw palay. Deducting the share of harvester, the thresher, irrigation fees, seeds a net more than the domestic consumption is at the disposal of farmers either directly to middlemen (SUKI) or stored for milling.

When milled at 60% recovery and only 70% of the total barangay population, are rice eating, there is a huge surplus of supply to meet the consumption demand.

However corn supply cannot supply the corn grits supply of the corn eating population.

Considering the huge surplus in rice supply effective marketing linkage and strategies shall be exploded for better and higher selling price. Post harvest facilities shall be provided particularly for drying, warehousing, and milling purposes.

Irrigation facilities shall be improved and upgraded to insure sufficient supply particularly during the dry season.

Areas devoted to corn production shall be expanded for self-sufficiency and support livestock and poultry industry. High-yielding corn varieties shall also be planted.

**Table No. 25 Commodity Balance Sheet, 2005**

Commodity	Production (MT)	Consumption (MT)	Surplus/Deficit (MT)
Rice			
Corn			

Source: DA

#### 4. Agricultural Facilities

A number of agricultural facilities and equipment are available in the barangay for the pre and post harvest activities.

For pre-harvest, the available farm tools and equipments are farm tractors, turtle/mudboats, plow, harrow/leveler and sprayer. The post-harvest facilities include thresher, solar dryers, there are no ricemill nor cornmill and warehouses.

The absence of warehouses and rice/corn mills force the farmers to sell their agricultural products in raw form and directly to middlemen or "suki".

**Table 26. Inventory of Farm Tools and Equipments by Purok**

Facilities	P1	P2	P3	P4	P5	P6	P7	P8	P9	P10	Total
1. Thresher											
2. Corn Sheller											
3. Trailer											
4. Farm Tractor											
5. Mill											
5.1 Rice Mill											
5.2 Corn Mill											
6. Turtle/Mudboat											
7. Solar Dryer											
8. Plow											

9. Harrow/Leveler											
10. Sprayer											
11. Cart											
12. Others (bolo/hatchet/spade etc.)											

Source : Barangay Survey

Issues and Concern:

- Lack of some important farm facilities & equipments based on the area planted to agri crops.
- Farmers with equipments due to high cost of maintenance, oil and fuel resulted to a very minimal return on investment.

Analysis :

Inadequate farm tools and equipments in this barangay resulted to non-modernization goal on food sufficiency since farm machineries play a vital role on agricultural production & profitability.

## 5. Agricultural Extension Services

### Production Support

MLGU extends support in agricultural production in terms of technical assistory services in deploying agri-technicians for crops and livestock production . A cooperative development officer-designate is also assign to organize and supervise the development and institutionalization of non-government organizations. Other support services provided are the establishment of demonstration farms, farmer's continuing education via farmers school on the air, upgrading of farms to market roads and construction of 107 linear meters of One Lane RCDG Bridge. Capability building activities and projects were also conducted by various government agencies and non-government organizations.

**Table 27. Production Support**

Production Support	Quantity (hds/bags/ pcs, etc)	SOURCE			Total
		Govt	NGO	Others	
- Establishment of Demo Farms					
- School on the air					
- Provision of mechanical Dryer					
- Upgrading of final					
- Construction of Foot Bridge		/			
- Artificial Breeding Center					
- Technical/Professional	3	/			

- Rodenticides					
- Animal Breeding Center					
<b>Seeds</b>	1 bag/Ha.	/		ADB-DAR	

Source : DA

## 6. Market Development

Almost ninety (90%) percent of agricultural products are sold outside of the barangay thus income are also spent outside of the barangay. Income and production are not circulated within the barangay.

During harvest season, traders and their middlemen from Digos buy the products where these are processed and milled.

With this situation, there is a need to strengthen and revitalized the existing cooperative to conduct the trading and marketing aspect of agricultural products. Functional links with other consumer cooperatives and markets in Digos and Davao City shall be forged. Pricing and packaging are also to be considered in response to the affordability and financial capability of consumers.

**Table No. 28 Market Outlet/Center**

Commodity	Outlet/Center (Facility)	Location
Rice	Buying Station /Outside Traders	Within the Brgy.
Corn	-do-	-do-
Coconut	Buying Station	Digos & Padada
Banana		Within the Brgy.

9				
10				
TOTAL				

Source: Barangay Survey

The residents of puroks usually acquire finance in private entities to have their own capital on business, such as sari-sari store, and other activities that can add income to the family.

### Problems & Issues:

- High demands for credit in all purok
- High interest from private institutions
- Only limited amount of credit from financiers.

Analysis:

The farmers in all puroks are in dire need of financial assistance from government institution to avail of lower interest rates.

## 7. Irrigation Development

There is an irrigation facility, a project of the National Irrigation Administration (NIA) which has served as around 2 farmers in the rice producing areas.

**Table 30. Irrigation Facilities**

Irrigation Facilities	Service Areas (Has.)	Farmers served

Source: Barangay

## 8. Other Infrastructure and/or Post-harvest Development

**Table No. 30 Other Infrastructure and/or Post-harvest Development**

Purok Name	FARM-MARKET ROAD		BRIDGES		OVERFLOW BRIDGES	
	Number	Total Length	Number	Total Length	Number	Total Length
Purok - 1						
Purok - 2						
Purok - 3						
Purok - 4						
Purok - 5						
Purok - 6						
Purok - 7						
Purok - 8						
Purok - 9						
Purok - 10						
TOTAL						

Source : Barangay

### Issues and Problems:

1. Some of the farm-to-market roads are ungraveled especially in Purok 6 and 10. There is bridge and culvert, but due to bad road condition during and after the wet season susceptible to road accidents really necessitates regular maintenance budget allocation.

### Analysis:

Flow of agricultural products is sometimes hampered during wet season because of the road condition. Moreover, farmers pay high transport cost.

**Table No. 31 Extension Support, Education and Training Service**

Kind of Training	No. PAX	No. of IFC Mat. Distributed	How It Helps to the farmers activities
1. Crops 1.1 FFS -Rice 1.2 Banana Culture	40 20	40 20	1. Crops: Reduced Production cost achieved higher profitability.
2. Livestock/Poultry 2.1 Animal Diseases & its control measure	40	40	Less infestation of animal diseases & thereby helps in attaining higher income.

Source : AT

- **Issues and Problems:**

- Only few farmers are willing to attend a long period of FFS training (15 weeks at 1 day/wk).
- Lack of financial support in conducting training.
- Trained farmers are only good in the application of the introduced technology, but after few months from graduation they go back to their usual way of old farming technique due to lack of farm capital.

- **Analysis:**

Education and training attended by farmers in this barangay is not a full guarantee in achieving higher production and profitability because the priority consideration in the farm is the capital to be used in the implementation of the introduced technology . Technology therefore shall be backed up with production credit support.

**Table No. 32 Extension Services**

Extension Worker	Agency		Frequency of Visit
	Government	Private	
1. Agricultural Technician (crops)	1		Weekly
2. Veterinarian/Livestock Technician	1		Monthly

Source: MAO

- **Techno Demo Established & Technology Demonstrated**

1. Organic based balance Fertilization on Rice Production
2. Demonstrated the gradual use of Organic fertilizer in combination of in-organic fertilizers.

3. Demonstrated the introduced integrated pest management technology and compared to their usual farmers practice, which is calendar spraying.

- Issues and Problems:
  - Inadequate planting materials for use as demo.
  - Lack of capital to undertake the project.

- Analysis:

Research/Farm Demos are only established in limited areas and the results of these farm demos are not properly adopted by the farmers due to limited farm capital.

## 9. Regulatory Service

- Barangay Ordinance adopted/implemented were:
  - Imposing penalties to stray animals damaging crops
  - Illegal fishing in river, sea and other water bodies.
- Penalty  
These ordinances are not properly implemented because the concerned Barangay officials are not so vigilant to enforce the laws.

Problem and Issues:

- Lack of political will among barangay officials
  - Not all residents are aware of the ordinance and other stubborn individuals remain the violators inspite of the laws.
- Analysis
    - Laws and ordinances adopted by the Barangay Council are useless if not properly implemented. Capability building among legislatorS is highly needed on this particular barangay. By doing so, there is a big possibility that all laws and ordinances shall be implemented.

### 2.4. 2 Forestry

#### TOTAL AREA OF PUBLIC LANDS

- % of public lands : None % (area for public lands/total barangay area) \* 100

#### ALIENABLE AND DISPOSABLE LANDS

- Total area for A & D lands : 267 has.

- % of public lands classified as A & D: \_\_\_\_\_% (Tot. A&D/Total area of public lands) \* 100

Sitios where A&D Lands are located:

Sitios	Total Area for A&D Lands per sitio
	All lands are classified as A&D

## Solid Waste Management

The solid waste system in the barangay is still an individual household concern, with wastes dump in backyard compost pit. Waste segregation is not implemented although awareness and barangay orientation activities conducted and barangay solid management committee was organized.

### 2.4. 3 Agrarian Reform

#### a) Carpable Lands

- Total CARPABLE AREA : None
- Total land area distributed under CARP : \_\_\_\_\_ has.
- % of land area distributed / total CARPABLE area: \_\_\_\_\_ %
- Sitios Located :
- Total no. of CARP beneficiaries : \_\_\_\_\_

### 2.4 .4 Commerce, Trade and Industry

Most of the business establishment in New Quezon are operating on small-scale and household type. About forty (40) sari-sari stores are present. Most of the residents do their marketing in Poblacion because of a very accessible in transportation.

#### a) Table No. 33 BUSINESS ESTABLISHMENTS IN THE BARANGAY

ESTABLISHMENT TYPE (ex. Sari-sari store, services etc.)	Sitios where these establishments are predominantly located	No. of Establishments (per type)	Average Number of Employed Person (according to establishment type)	TOTAL NO. OF EMPLOYED PERSON ACC. TO ESTABLISHMENT TYPE
Sari-sari Stores	Barangay site			
Banana Plantation	Purok 2			
Total Employment size generated by commercial establishments				

### 2.4.5 Tourism and Recreational Facilities

#### 2.4. 5.1 Tourism Sites and Potential

“FESTIVALS AND FESTIVITIES”

- Barangay Fiesta
- Araw ng Barangay (Conduct cockfighting)
- Araw ng Puroks

## 2.5 SOCIAL SERVICES PROFILE

### 2.5.1 Health and Nutrition

#### 2.5.1.1 Health, Nutrition and Family Planning and Sanitation

Among the diseases that the recurring and occurs during the rainy season are diarrhea and cough in not alarming levels. A botica sa barangay was established and is functional. A Barangay Health Station was also established manned by registered midwife and assisted by Barangay Health Workers, and Barangay Nutrition Schoolers.

Table No. 34 Seasonality Diagram

Illnesses	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec
Diarrhea	x							x				x
Cough			x					x				x
Malaria												

Source: MHO/BHWs

#### 2.5.1.2 Medical Health Facility/ Personnel and Services

There is a Barangay Health Station in the barangay where services of a rural midwife is available during working days of the week. The midwife is also responsible for the conduct of various health-related activities such vaccination and other preventive measures. Patients that needed medical attention are referred to the main health center in Poblacion about twelve(12) kilometers away to the Integrated Provincial Hospital in Digos City.

Table No. 35 Distance to Medical Health Facilities

From Barangay	To			
	Brgy. Health Center	Mun. Health Center	Secondary Hosp. in Digos	Teriary Hosp. Davao City
New Quezon				

Source: MPDO

The barangay has one (1) health center within the Barangay Hall. The center serves as the place for consultation of pregnant women, immunization of children and other health benefit programs of the Municipal Health Office. One (1) midwife, who receives salary from the municipal government is assigned in the

barangay. There are \_\_\_\_\_ (\_\_\_\_) barangay health workers and one (1) Barangay Nutrition Scholar (BNS) rendering health care services and they received honorarium from both barangay and municipal government.

**Table No. 36 Number of Health Personnel**

Personnel	No.	Benefits/ Honoraria Given		
		By BLGU	By MLGU	By PLGU
Midwife				
Brgy. Health Worker				
Brgy. Nut. Scholar				
Hilots

### 2.5.1.3 Leading Causes of Morbidity

The leading cause of morbidity in the barangay are diarrhea and cough. These diseases are recurring and occur during rainy season.

**Table No. 37. Leading Causes of Morbidity (0-5 years old)**

Causes	Number of Cases		Total	Rate
	Male	Female		
Parasitism				
Dog Bite				
<b>TOTAL</b>				

Source: BHWs

The morbidity report covers only those who have consulted at the barangay health station and main health center. This does not include consultations and medications done at the private hospital and clinics. The leading cause of morbidity is parasitism among children which is attributed to lack of care by parents and improper handling of food. This can be addressed through deworming which is done twice a year by personnel of MHO or midwife assigned to that certain barangay usually in the months of May and October.

### 2.5.1.4 Leading Causes of Mortality

Pneumonia is the leading cause of mortality in the barangay.

**Table No. 38 Leading Causes of Mortality (0-5 Years old)**

Causes	Number of Cases		Total	Rate
	Male	Female		
- Pneumonia				
<b>TOTAL</b>				

Source: BHWs

There are reported cases of mortality in pneumonia among children. Pneumonia is a deadly disease that needs sufficient amount of money to treat the disease. Acute disease of this kind is usually treated in secondary hospitals in order to survive.

### 2.5.1.5 Leading Causes of Maternal Mortality

**Table No. 39 Leading causes of Mortality (at least 3 years back)**

Year	Causes	Number of Cases

Source: MHO

There is only 1 recorded maternal mortality that happened in the barangay for the last 3 years. This is due to lack of information on the regular pre-natal care services which is pursued by the rural health midwife and the BHW to avoid such incident.

### 2.5.1.6 Nutritional Status

**Table No. 40 Nutrition Status by Gender (0-5 years old)**

Gender	Population	Normal		Below Normal Low		Below Normal Very Low	
		Magnitude	%	Magnitude	%	Magnitude	%

### 2.5.3 Education

#### a) Educational Institutions

There is only one (1) complete Elementary School located centrally in the barangay. It occupies an area of \_\_\_\_\_ hectare of government-owned land. It has \_\_\_\_\_ teachers and 6 classrooms with a 34:1 enrollee-teacher ratio. In the school age population the 6-14 is 139 and 13-16 secondary level is 23 and only 5 for 17-21 tertiary level in that classification. The distance from community to school by purok is estimated in table below.

TYPE OF VEHICLE (ex. Truck, motorcycles, etc)	UTILITY TYPE (ex. Public, private)	TOTAL NO.
Tricycle	Public	
Motorcycle	Private	
Truck	Private	

Source : MPDO

For transportation, the table above shows that more households own motorcycles because it can easily be acquired through easy monthly installment plans offered by companies elsewhere. Motorcycles are good type of transportation in the barangay because it can penetrate remote areas that cannot be reached by four-wheel cars. Some households derive their means of living by employing single motorcycles as public utility transportation known in the local parlance as "single motorcycle".

### 4. COMMUNICATION

Commonly used in the barangay nowadays in communication is mobile phone. Mobile phones are becoming more popular with the presence of SMART and GLOBE cellular sites. They are also using Hand set radio to communicate between the barangay officials and the municipal government and other line agencies.

**Table No. 67 TELECOMMUNICATION Services**

**Table No. 68 BROADCAST MEDIA SERVICES**

TYPES OF BROADCAST MEDIA FACILITIES THAT HAVE REACHED THE BARANGAY	NO. OF HH SERVED
Radio	
Television	

Source : Barangay Survey

Radio and television are broadcast media facilities that have reached the barangay. However, not all households own television. For those who cannot afford to buy television due to poverty, they just have the radio to keep them informed as well as it is a source of recreation and relaxation to them by listening music and drama.

## 2.7 Barangay Local Government Profile

### 1.1 Development Administration

## **BARANGAY COUNCIL**

The barangay being the basic political unit, serves as the primary planning and implementing unit of government policies, plans, programs and activities in the community, and as a venue wherein the collective view of the people may be expressed and considered, and where disputes may be amicably settled.

The organizational structure of the Barangay Government of San Guillermo places the Punong Barangay at the helm of local government leadership. Under the punong barangay are the members of Sangguniang Barangay and SK Chairman who serve as the local legislative body. Under the supervision of the punong barangay are the barangay secretary, treasurer and utility worker.

## Organization Rating Matrix of Barangay Officials

### DUTIES AND FUNCTIONS OF THE BARANGAY AND APPOINTED OFFICIALS

- Punong Barangay** - General supervision, control and implementation of programs and activities; act as the presiding officer during of the session of the barangay council.
  
- Sangguniang Barangay** - Legislative function and related services.
  
- Treasurer** - Collection and disbursement of funds and custodian of barangay properties.
  
- Secretary** - Secretariat to the barangay council and keeper of records of the barangay.

**Table No. 69. Organization Rating Matrix of Barangay Officials**

### Barangay Development Council

Section 106 of RA 7160 provides that each barangay shall have multi-sector development plan to be initiated by the barangay council for the purpose of setting direction of economic and social development and coordinating development efforts within its territorial jurisdiction.

### Administration of Justice

To carry out the barangay justice system, the Lupong Tagapamayapa was organized in the barangay which is composed of the Punong Barangay as Chairman and 15 members.

The lupon exercises administrative supervision over the conciliation of parties in dispute. Lupon meets regularly to provide forum to have an exchange of ideas among the members and the public in matters relevant to

amicable settlement of the disputes. There are 15 cases indorsed to lupon and 85% were settled amicably.

### Public Order and Safety

There are 20 barangay tanod in Barangay San Guillermo , all receiving honorarium from the barangay. Its duty and responsibility is to safeguard and protect the life and properties of the barangay people.

CVO members had attended skills training conducted by the provincial government in coordination with the DILG and PNP has to learn new strategies of crime prevention and awareness in anti-emergency efforts of the government.

### Performance of the Barangay Officials

The barangay has a satisfactory rating in almost all items in administration of basic services to the different sectors. However, it got low rating in the performance of the barangay development council particularly during conduct of regular meetings for they meet only as the need arises. Likewise, they got low rating in the conduct of participatory monitoring and evaluation because the system is not yet institutionalized in the barangay. The barangay officials got outstanding rating in the conduct of general assembly, hearing and investigation and in the making and submission of reports.

## CHAPTER 3 - SITUATION ANALYSIS

It analyzes the situation of the barangay and identify the land issues and conflicts, the sectoral needs, issues and concerns to be addressed, opportunities and potentials that can be tapped, causes & effects of the core problems, the poverty situation and provided revenue generation and allocation.

### 3.1 LAND USE ANALYSIS

- Existing Land Use

The total land area of Barangay San Guillermo which is \_\_\_\_\_, the existing land use classification of the barangay shows that a large part is for agriculture covering an area of \_\_\_\_\_ hectares. This indicates of \_\_\_\_\_% is used for agricultural production.

Land Uses	Area (Hectares)	Percentage to Total Area
1. Agriculture		
2. Built-up		
3. Roads		
4. River		
<b>TOTAL</b>		

- **Road Network**

The present land area covering the road network of the barangay stands at 6.700 has. Or .37% of the total land area. However, the poor road condition hinders the smooth and fast delivery of farm products to the market. As a result, the economic growth of the locality is hampered due to this fact. Some barangay roads are impassable during rainy season, thus, rehabilitation, repair and maintenance is needed to provide access roads to the market (Figure 1 Road Network Road Map)

Name of Road	Total Length (km)
1. San Guillermo Ave.	3.000
2. San Guillermo Rd. 1	0.850
3. San Guillermo Rd. 2	0.450
4. San Guillermo Rd. 3	0.500
5. San Guillermo Rd. 4	0.350
<b>TOTAL</b>	<b>5.150</b>

**Problems & Issues:**

- Roads are flooded during rainy season
- Some part of barangay roads are impassable during wet season
- Roads are ungraveled
- Inadequate farm-to-market roads.
- Water Bodies

The water bodies particularly the river in the barangay occupy an area of 5.00 has. Or 0.40% of the total land area. There is only one (1) river that traverse the barangay. (Figure 2 Water Bodies Map).

Types of water bodies	Names
1. Creek	

- **Problems / Issues:**

- River scouring of bank if cannot regulate & control flood.
- Occurrence of flash floods
- Damage to crops
- Infrastructure and Settlement

The infrastructure and settlement or the built-up area comprises of \_\_\_\_\_ has. Or \_\_\_\_\_% of the total land area. There are structures

like houses, purok centers, chapels, school building, solar drier which are constructed within this area (Figure 3 Infrastructure/Settlements Map).

**Problems/Issues**

- Lack of potable water
- \* There are households living in makeshifts houses
- All public buildings needs to be rehabilitate.
- Lack of access roads to remote areas.
  
- Land Cover

Cash crops occupy the large area of agricultural land with \_\_\_\_\_ hectares out of \_\_\_\_\_ has. Then followed by the permanent crops which uses \_\_\_\_\_ hectares and mixed crops with \_\_\_\_\_ has. which includes all types of crops that the constituents wanted to plant in a certain area. The high cost of farm inputs such as fertilizers and pesticides which the farmers could hardly afford to buy and resulted to low production makes the farmers still living below poverty line of lifestyle. In addition to that the poor road conditions especially during rainy season has caused also financial hardship to farmers to transport their farm production to the market. Marketing linkages and credit facilities with minimal interest or free-interest are also needed to alleviate the living condition of the farmers. (Figure 4 Land Cover/Vegetation Map).

**Types of Land Cover**

Types of Land Cover	Area (Hectares)
1. Cash Crops	
2. Permanent Crops	
3. Mixed crops	
4. Wetland	
5. Others	
<b>TOTAL</b>	

**Problems/Issues:**

- Lack of training on proper farming methods
- High cost of farm inputs
- Difficulty of bringing the farm products to the market due to poor condition of the road.

- **Protection/Riparian Zone**

Occurred flash flood should be controlled to protect the scouring of river and to maintain the depth of the river to avoid deflection from the course of the flow towards the banks which could damaged the adjoining farmlands. (Figure 5 Protection Map).

- **Erosion/Flood Hazard**

During heavy rainy season the road was muddy . Roads becoming muddy and not passable for travelers were mitigated by planting trees along the roads and periodic crowning by motorgrader funded by Barangay Dev't. Fund and Barangay Road Maintenance Project.

Joint Barangay Ordinances were enacted to implement Riverbank Protection Program through Bamboo or Tree Planting.

- **Land Use Conflict**

Households are present erected not on their owned-lot or as squatters but there are no recorded cases of disputes due to amicable settlements with the land owners.

In the territorial jurisdiction of the barangay, this is still referred with the Municipal Assessor in order to regulate the tax assessment and in the proper disposition of the tax revenues. Adjacent barangays are \_\_\_\_\_, and \_\_\_\_\_.

## ROAD NETWORK

Types of Road	Length (kms.)	Specific Names	Specific description (concrete, asphalts, graveled, unpaved)	Recent Physical Condition	Importance of the Road	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Brgy. Road	3.000	1. San Guillermo Ave.	Graveled Rd.	Passable but some portions need graveling	Necessary for transportation	Passable but muddy during rainy season	The road condition may be damaged	Needs maintenance for graveling of the road

Types of Infra	Names/Types	Specific Description (Qty. Size)	Present Physical Condition	Importance	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Barangay Hall	Ordinary Type w/session hall	15mts. X 15mts.	Good	Sessions, meetings & transactions	Some parts of the building are not yet finished	Damages the building	Needs maintenance and repair
Health & Day Care Center	Ordinary Type Ordinary Type	15 x 15 mts. 15 x 15 mts.	Good	Health, nutrition & kinder/nursery classes	Some parts need for rehabilitation	Could not be used soon	Needs maintenance
Purok Center	All Purok	8 x 8 ft.	Currently used but some are dilapidated	Purok meetings	No funds for repair & maintenance	Could be in state of disrepair or destruction	Request funding though the barangay council or solicit amount for regular repair and maintenance
Settlements	Settlements		- Concrete - Wooden - Makeshift - Semi-concrete	For Shelter	Made of light materials under repair	Could soon be homeless	Needs improvement & repair
School Building	Elem. School		Good	Source of basic education	Classrooms must be repaired	Could not be used soon	Needs periodic repair
Electricity	DASURECO	-	Good	- Save more time & money - Improve the standard of living	All are energized but others can't afford to connect electricity.	Still uses kerosene Gas for lighting	Expansion to all puroks
Creek	San Guillermo		Good	- Passable to all constituents	Scouring of structure	Could not be used soon	Operation & Maintenance buget annually to follow the MOA for ten yrs.

## LAND COVER/VEGETATION

Existing Land Cover	Estimated Land Area (In Has.)	Physical Condition	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Total Land Are					
Cash Crop		Planted with rice, corn, coconut, banana and vegetable	Some crops do not yields good harvest due to infestation of disease and insufficient water supply from the river	Low income resulting in non-payment of credit to financiers	Refer to technician for proper training and recommended technology to be used
Permanent Crops		Others grow favorably but some crops need care and maintenance	Difficulty in carrying products to the main road/market	Double hauling of products in some remote areas	Repair/rehabilitate impassable roads
Mixed Crops		Planted with mixed crops	Some crops could not survive due to climate change	Low Income	Right training and technology

## PROTECTION

Existing Land Cover	Legal Basis (Name of law ordinance)	Specific Location (Sitios Purok)	Estimated land Area (In Has.)	Present Land Use	Problems/Issues	Possible effects of the Problem	Suggestions/Recommendation
Riparian Zone	Refer to Municipal Assessor			There are households settling along creek	Landslide, soil erosion and flood occur in the river	River Scouring of bank if can't regulate & control the flash flood	Regulate & control of flash flood to have proper drainage canal for water disposal.

## EROSION/FLOOD HAZARD

Type of erosion	Estimated Land area (Has.)	Location (Sitios Purok)	Specific Manifestation of soil erosion	Effects of soil erosion in the area	Possible effects of the Problem	Suggestions/Recommendation
Slight flood	5.0 has.	Purok 4,3, 7 & 8	During heavy rainy season the erosion & floody areas were observed.	Crops, livestock & properties are damaged	Roads becoming muddy & not passable for travelers.	Massive tree planting along the roads and periodic crowning by motorgrader.

## LAND USE CONFLICT

Existing Land Cover	Estimated Land Area (Has)	Location (Purok)	Present Physical Condition	Problems Encountered, Issues & Concerns	Possible Effect of the Problem	Suggestions/Recommendations
Planted with Cash Crops			Suitable for agricultural crops	Households are present erected not on their owned-lot or squatters.	Identity of households occupying conflict areas particularly during registration and land ownership and other similar problems to be encountered in the future.	To avoid confusion as to when the area being utilize by the landowner the occupants precaution not to build houses made of strong materials.
Settlements Area along Balutakay river			Increasing number of households/squatters building temporary shelters on the road-right-of way	There are houses along the road-right-of way which could be wiped away during floods	Dangerous to transport vehicles passing the Balutakay river during rainy season.	Find relocation areas to stubborn households living within the road-right-of way; advise them to transfer to higher grounds for the safety of their lives or force eviction therefore.

**ANALYSIS BY SECTOR  
SUMMARY ON SITUATIONAL ANALYSIS**

<b>Sector</b>	<b>Development Potentials</b>	<b>Problems and Issues</b>	<b>Constraints</b>	<b>Opportunities</b>
Economic	<p>Agriculture</p> <p>a. Strategic crop dev't. zone</p> <p>1. Production of rice, corn, coconut and vegetable</p> <p>2. Vermicomposting</p> <p>b. Strategic Livestock Development Zone</p> <p>1. Production of large &amp; small animals &amp; upgrade animals</p> <p>c. Credit &amp; Marketing Dev't. Zone</p> <p>1. Strengthen Malabang Cooperative and continuous capital build-up</p> <p>d. Environmental Management</p>	<p>Poor farming technology and use of inorganic fertilizers</p> <p>Low population of livestock in a vast pastoral lands</p> <p>Not functioning and unstable condition of existing cooperative</p> <p>Floods along the creeks</p>	<p>Increase production and food security with low input</p> <p>Increase animal production</p> <p>Assistance to Brgy. Food Terminal Market and Savings Mobilization program</p> <p>Trees protects the environment, prevent floods</p>	<p>Avail of technical supervision from DA</p> <p>Avail of animal dispersal from the government</p> <p>Promote development of cooperatives</p> <p>Prevention of flood</p>
Social	Water Facilities	Lack of distribution of jetmatic	Households are provided water facilities	Avail of government financing for water utilities program
Infrastructure	<p>1. Concreting, rehabilitation &amp; maintenance of Farm-to-Market roads</p> <p>2. Electricity</p> <p>3. Government Facilities</p>	<p>Impassable during rainy season due to dilapidated road condition and floodings.</p> <p>No distribution lines to remote sitios</p> <p>Lack of mini-gym, mobile emergency vehicle</p>	<p>Fast and easy to transport of farm products and in human loads</p> <p>Households are provided electricity.</p> <p>Sports &amp; meeting facilities are provided, stand-by vehicle for emergency calls</p>	<p>Avail of government loans and other infrastructure projects</p> <p>Expansion program of DASURECO</p> <p>Gym and ambulance are most common programs of local political leaders</p>
Local Governance	Barangay Revenues	Poor collection of taxes	Increase Income	Honorarium/Additional benefits for barangay council members and leaders
Land Use and Environment	Undeveloped forested area of 2 hectares.	Lack of access roads, uncultivated lands	Lands are developed and its utilization are maximized	Avail of the benefits of CARP laws

## The Situational Analysis Matrix

Development Parameters	Issues that Matter	Existing Condition	Trends	Problems/Causes	Implications	Strategic Interventions
Environment	Creek	Protected area and Riparian	Gradual landslides	Erosion, Floods during heavy rains	Destruction of crops and properties	Households conduct tree-planting along the creek construction of dikes.
Water		Remote areas without potable water	Needs water from the source	Lack of extension pipes from the source	No potable water	Municipal Government to provide jetmatic pipes for the constituents.
Literacy	All Purok	Some children are not sent to school	Lack of skills and knowledge resulting to low income of households	Illiteracy Problem	Not enough income because of lack of knowledge	Attend livelihood seminars/trainings conducted by the government or engage in poultry livestock project to augment income.

**POVERTY INDICATOR BY PUROK**

## CHAPTER 4 - DEVELOPMENT PLAN

### DEVELOPMENT FRAMEWORK

**VISION:** Panglantaw

**MISSION:**

## BARANGAY POVERTY REDUCTION AGENDA (TARGETS)

Core Poverty Indicators	Baseline Data	Poverty Reduction Targets
Lack of Income	Means of living of households provides only meager income	Engage in livelihood projects with non-financial resources
Many are unemployed	The income not enough to cover up the basic daily needs.	Find ways to look for a job anywhere just to augment income
No land of his own, only laborer	No other livelihood skills except as laborer	Encourage households to attend livelihood project seminars undertaken in the barangay to gain knowledge
Unable to send children to school	Means of living of households provided only meager income	Encourage households to enroll their children to government institution or avail of scholarship program
Lack of Potable Water	Lack of budget allocated intended for water facilities due to low income of the bgry.	Request assistance from Mun. Government to allocate pipes for the installation of jetmatic in the remote area of the barangay.
Dilapidated Roads	Transporting of goods is hampered	Request financial assistance from government for repair and maintenance of barangay roads
Households living on the road-right-of way	Only squatters of land, no house and lot to dwell	Find relocation/resettlement areas
Lack of Knowledge	Many youths are unschooled	Encourage the youth to enroll in non-formal education or attend livelihood trainings/seminars
Lack of farming techniques	Many farmers are still using the old system of farming method due to lack of training and capital	Provide demonstration farm and right farming technologies
Lack of program for farmers	Implementation of government plans and programs to households is greatly affected because of lack of it.	Request assistance for the construction of the necessary government facilities
Lack of Facilities	Needed additional facilities for the increasing number of population	Appropriate amount for construction of facilities from barangay funds or from other sources.
Lack of monitoring and evaluation	No auditing conducted from previous projects up to the present	Require regular inventory of all properties and inspect all implemented projects of the barangay
Cannot express oneself	Typical problem common in the barangay	Raise their level of awareness and motivation
Gambling	No stable jobs	Engage in poultry/livestock raising and other income-generating projects with lesser capitalization
Unable to pay debt	No stable jobs	Find job opportunities elsewhere

## REVENUE GENERATION AND MANAGEMENT ENHANCEMENT PLAN

Objectives	Impact Indicators (including amount of revenues to be generated)	Development Interventions (Programs/Project/Activities)	Period of Implementation & Budgetary Requirements					Source of Funds
			2009	2010	2011	2012	2013	
Require CTC to permittees in every transaction in the brgy.	20% increase collection in CTC is expected	Annual Activity of the barangay	Jan. 500.00	Jan. 500.00	Jan. 500.00	Jan. 500.00	Jan. 500.00	Barangay
Intensify RPT Collection	10% per annum could be generated from delinquencies	Grant tax amnesty to delinquent taxpayers to update payments of Real Property Taxes (RPT)	May 1,000.00	May 1,000.00	May 1,000.00	April 1,000.00	April 1,000.00	Barangay

## FIVE-YEAR DEVELOPMENT PLAN

### EDUCATION

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
1. Computer literacy program, computer facility, 6 sets of computer	To equip the children w/ the knowledge about computer programming	The children are computer literate	Lack of knowledge	School	Grade 1-VI			/	/	/	P250,000.00-LGU & PTA Community
2. Additional books & work books for elementary school	Give the children more reference to enhance their knowledge	The children can read to comprehend more if they have provided books & workbooks.	Lack of Knowledge	School	Grade 1-1V	/	/	/			Dep.ED, LGU, NGO's Community parrents
3. Promote all programs for out-of-school youth	Give OSY a chance to learn and accelerate, by taking acceleration exam.	OSY will be accelerated to a higher education if he/she passed the exam	Lack of knowledge	School	OSY	/	/	/	/	/	P200,000.00 - LGU, Parents
4. Involvement of any activities	Motivate the children to participate in any activities of the school, barangay or in town for their growth and development.	Children are socially motivated	Lack of knowledge	School	Grade 1-VI	/	/	/	/	/	P25,000.00 - LGU's, DepEd.

5. Sport's equipments and facilities, volleyball (net & ball), Badminton, Table tennis, Sepak Takraw	To develop the skills of the pupil in the field of sports	Skilled pupils in the field of sports have a chance to excel in sports competition.	Unemployment, Gambling	School	Grade IV-VI	/	/	/	/	/	P15,000.00 - LGU's, Dep.Ed.
6. Feeding Program (Health Nutrition), Health Medicine Nutrition)	To solve problem of malnutrition	- Children may become healthy - Reduction of Malnourished children	Lack of Income	School	School Grade	/	/	/	/	/	P20,000.00 - LGU, Parents, DOH
7. Library Building	To help the children for their research work	The children can easily catch up the lesson.	Lack of Knowledge	School	School children	/	/	/	/	/	P250,000.00 - LGU's, NGO's
8. Computer Building	To help the children become literate in comptr. Procedure.	Children are computer -literate	Lack of Knowledge	School		/	/	/	/	/	1.2 M. - LGU's, NGO's
9. Mini Sports	To divert children attention in sports instead of using illegal drugs and other vices	- Sportsmanship will be developed. - Children will become healthy & skillful in the field of sports.	Gambling Lack of Knowledge	School	School Children	/	/	/	/	/	LGU's

## TOURISM/TRADE/INDUSTRY

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
1. Garments Factory Industry	To generate employment to households	Decrease unemployment	Lack of income		OSY	/	/	/	/	/	P500,000.00 - LGU
2. Banana & Sugar Industry	To generate employment to households	Decrease unemployment	Lack of income		OSY	/	/	/	/	/	P1,000,000.00 - LGU
3. Scholarship for the Indigent	To send children to school	Basic education has been provided	Cannot send children to elementary & high school		Indigent Families	/	/	/	/	/	P 450,000.00 - PLGU, LGU
4. Wood Craft Industry	To generate employment to constituents	Decrease unemployment rate	Unemployment		Jobless	/	/	/	/	/	P250,000.00 - LGU, PLGU
5. Barangay Nursery	To maximize the use of land	Seedling house is provided	Lack of facilities		People of Baranga	/	/	/	/	/	P300,000.00- LGU

## ENVIRONMENT/PROTECTION SECURITY

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
1. 2 Has. Resettlement Area	To provide settlement area to squatters	Indigent has acquired resettlement area	Living on the road-right-of way	Purok 8	110 Indigent Household	/	/	/	/	/	P300,000.00 - PLGU, CDF, PDF
2. Mobile Patrol Ambulance	To respond quickly all emergency calls	Emergency calls are answered immediately in the barangay	Lack of Facilities	Barangay Wide	Barangay Tanod, constituents of the barangay	/	/	/	/	/	P500,000.00 BLGU, PLGU, MLGU, CDF
3. Waste Segregation Mini-Dump Truck	To segregate biodegradable & non biodegradable waste materials	Cleanliness & sanitation are properly implemented	Lack of Monitoring & evaluation	Barangay Wide	525 HH's	/	/	/	/	/	P200,000.00 CDF, PLGU

## LOCAL GOVERNANCE & ADMINISTRATION

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
1. Capability building a) Fiscal Management b) Implementation of project <ul style="list-style-type: none"> <li>• Roles Policies</li> <li>• Monitoring</li> </ul>	To equip barangay officials with more knowledge on barangay governance	Barangay Officials have acquired knowledge on local barangay governance	Lack of Knowledge	Barangay San Guillermo	5-day Training All Barangay Official	/	/	/	/	/	BLGU
2. Educational Tour	To visit other places for observation & experimentation	Additional knowledge is gained during the visitation.	Lack of Knowledge	Barangay San Guillermo	Barangay Dev't. Council	/	/	/	/	/	P250,000.00 - CDF, MDF, BDF
3. Strict Implementation of Barangay Ordinance	To see to it that all ordinances are implemented to ensure order	Barangay Ordinances are implemented	Lack of Income	Barangay San Guillermo	All Barangay Ordinance	/	/	/	/	/	P25,000.00 - BLGU
4. Review of Barangay Ordinances & resolutions	To update previous barangay ordinances	A new barangay ordinance that could provide increase in barangay income	Lack of Income	Barangay Hall	Retrieved barangay ordinance/resolution	/	/				

## FINANCE (REVENUE GENERATION PLAN)

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
1. TAXES  a) Store or Retailer w/fixed business & establishment  b) RPT & Community Tax Certificate (cedula) tax collection	To increase collection of real property taxes	RPT collection had been increased	Lack of income	Barangay San Guillermo	Taxation & other Revenues 98%	/	/	/	/	/	Store owner retailer establishment Owner's.
	To implement barangay tax ordinance	Taxes on business, fees accruing to the barangay had been increased	Lack of income	Barangay San Guillermo	100% collection	/	/	/	/	/	Brgy. Constituents
	- 100% obliged to lukat cedula	Collection had been increased	Lack of income	Barangay San Guillermo	100% collection	/	/	/	/	/	Brgy. Constituents
2. Service fees & charges: <ul style="list-style-type: none"><li>• Clearances, permit fees &amp; other charges</li></ul>	To increase collection of the barangay.	Collection had been increased	Lack of Income	Barangay San Guillermo	100% collection	/	/	/	/	/	MLGU, PLGU, CDF, SP
3. Request for Grants & Aids: <ul style="list-style-type: none"><li>• Municipal Aid</li><li>• CDF</li><li>• Provincial Aid</li><li>• PDF</li></ul>	To augment income from other sources for the projects	Other projects had been provided & given	Lack of Income	Barangay San Guillermo	Barangay construction project	/	/	/	/	/	MLGU, PLGU, CDF,

## HEALTH

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
1. Family Planning	- To control of birth among households - To plan for the number of child to be raised among households	Family planning program is implemented	Lack of knowledge/income	Barangay San Guillermo	MWRA	/	/	/	/	/	40.00/Client - MLGU, BLGU, PLGU
2. Feeding	- To reduce incidence of malnutrition	Malnourished children are rehabilitated	High incidence of malnutrition	Barangay San Guillermo	30 Malnourished children	/	/				15,000.00- MLGU, BLGU, PLGU
3. Phil. Health sa Masa	To provide health care services to households	Indigent families have availed of health care benefits	Cannot send sick patients to medical doctor	Barangay San Guillermo	All Households	/	/	/	/	/	800.00/year PHILHEALTH SA MASA - BLGU, MLGU, PLGU
4. National Tuberculosis Program	To identify individuals who are infected with tuberculosis	Tuberculosis patients are medicated and cured	Lack of Knowledge	Health Center	All Constituents	/	/	/	/	/	25,000/Client per month for 6 mos. - BLGU, MLGU, PLGU
5. Referral to Mental Hospital	To be able to rehabilitate mental patients	Mental patients have been rehabilitated	Lack of Income	Barangay San Guillermo	2 mental patients	/	/	/	/	/	25,000/clients per months - BLGU, MLGU, PLGU

## INFRASTRUCTURE

Programs & Projects	Objectives	Result Indicator	Brgy. Poverty Reduction Indicator Addressed	Location	Target Has./HH's	Time Table					Budget Source of Funds
						1	2	3	4	5	
* Farm to Market Road.	Easy transport of product and lesser expenditure.	Roads are maintained and rehabilitated	Dilapidated Roads	Barangay San Guillermo		/	/	/	/	/	BLGU, LGU Project, 20% Dev't. Fund, CDF, MRDP
* Water System	Install reservoir for potable water of the constituents	Distribution pipes for potable water are installed	Lack of Potable Water	All Purok	300 HH's	/	/	/	/	/	MRDP, LGU, BLGU

## CHAPTER 5 - IMPLEMENTING MECHANISM

BARANGAY ANNUAL INVESTMENT PLAN

<b>Economic Sector</b>										
<b>1. Agriculture</b>	Livestock animal health care program	BLGU, LGU	January 1, 2010	Dec. 30, 2010	Dewormed of Cow & Goat	BLGU, DA	10,000.00	10,000.00	20,000.00	40,000.00
	Livestock dewormed program				Animals distributed to all purok (Cow & Carabao)	BLGU, DA	20,000.00	20,000.00	40,000.00	60,000.00
<b>Social Services Sector</b>										
<b>1. Health</b>	Feeding Program	BLGU, DOH	January 1, 2010	December 30, 2010	Malnourished children are rehabilitated	BLGU, LGU	10,000.00	10,000.00	20,000.00	40,000.00
	Family Planning	BLGU, MHO	January 1, 2010	December 30, 2010	Birth control or birth spacing among couples	BLGU, LGU	15,000.00	15,000.00	25,000.00	55,000.00
<b>Infrastructure Utilities</b>										
	Operation & Maintenance for BRMP	MEO-LGU	January 1, 2010	December 30, 2010		LGU		200.000		200.00
<b>Local Governance &amp; Administration</b>	Review & update previous barangay ordinances	BLGU	January 1, 2010	December 30, 2010	Barangay ordinances are revised for full implementation	BLGU	5,000.00	5,000.00	10,000.00	20,000.00

## RESOURCE MOBILIZATION PLAN

Project	Strategies	Responsible Unit/Person	Target Partner/s	Resources To Be Generated & Projects To Be Implemented
1. Plugging the resource leaks 1.1 Mobilizing Non-financial Resources 1.2 Adopting Cost-cutting mechanism	Utilization of recyclable materials and agricultural by-products	NGOs, Barangay Council, Tourism	DA-MRDP	70,000.00 - woodcraft or handicraft projects
2. Enhancing Resource Flow 2.1 Internal Sourcing 2.2 Mobilizing Human Resource	Tap NGOs/Labor Force of the barangay to assist in development projects	Barangay Council, NGO, All households	LGU, NGOs	60,000 - Tree planting activity
3. Tapping Crop Development Zone	Massive production of vegetables, cash crops & permanent crops	DA, Barangay Council, NGOs	DA - MRDP	250,000.00 - Vermicomposting
4. Tapping Livestock Development Zone	Massive breeding & fattening of high-bred large & small animals	DA, Barangay Council, NGO	DA-MRDP	500,000.00 - Animal Loan Dispersal
5. External Sourcing	Request financial assistance from CDF, pork barrels, grants or loans from various agencies	Senators, Congressman, Governor, LGU, DA, MRDP	Municipal, Provincial, National offices, DA-MRDP	15,000,000.00 - Agricultural & Infrastructure projects

## MONITORING AND EVALUATION PLAN

Monitoring & Evaluation Activites	Objectives	What to Monitor	Frequency	Responsible Groups		Reports Expected	Users of the Monitoring Outputs
				Brgy. LGU	Partner Unit		
1. Evaluation on the implementation of plans & programs CY 2008	To determine the duration of the implemented projects as embodied in the approved dev't. plan.	Projects implemented are in accordance with the approved dev't. plan	Monthly	Comm. On Infra., Agriculture, Finance, Health, & Education		List of projects implemented	BLGU
2. Conduct Inventory of all properties owned by barangay	To account properties in accordance to COA roles & regulations	Properties Owned by the barangay	Once a Year	Finance committee		List of BLGU properties	BLGU, COA
3. Conduct ocular inspection on the project implemented	To know the development of the project implemented	Status of the project implemented if the poverty indicators are addressed	Quarterly	Comm. On Infra, Agriculture, Education, Health & Finance		List of projects & status report	BLGU
Conduct Tax Campaign	To determine the number of business establishment & real properties in the barangay to pay taxes regularly	Real Properties and Business establishment of the barangay	Quarterly	Finance Committee		List of beneficiaries of the projects	BLGU, LGU, PLGU
Audit financial status in the barangay	To find out either the financial status of the barangay in accordance with the government standard procedures. To make analysis on the income & expenditures patterns	Proper utilization of the funds of the BLGU	Quarterly	Finance Committee	Mun. Assessor, Prov'l. Assessor, PLGU. COA	List of business and agricultural establishment, revenues generated & real property tax income Audit report	BLGU, MLGU, PLGU

	for formulation of fiscal plans & policies						
--	---	--	--	--	--	--	--

### INTER-BARANGAY COMPLEMENTATION/INTEGRATION PLAN

SECTORS	PROGRAMS/PROJECTS	Malabang	Clib	Lapulabao
<b>1. INFRASTRUCTURE UTILITIES</b> 1.1 Transportation & Road	Road concreting, rehabilitation & maintenance of roads & bridges	Use of Farm-to-market roads and bridge	Use of Farm-to-Market roads and bridge	Use of Farm-to-Market roads and settle boundary conflict
1.2 Power	Energization	Expansion of electricity to remote sitios not reached by power lines	Expansion of electricity to remote sitios not reached by power lines	Expansion of electricity to remote sitios not reached by power lines.
1.3 Water	Water Supply	Tap potable water supply from BWD	Tap potable water supply from BWD	Avail of water supply from BWD
<b>2. Economic Sector</b> 2.1 Agriculture	Tree Planting	Protect all river bank to prevent floods & landslides	Protect all river bank to prevent floods & landslides	Protect all Creek areas to prevent floods & landslides
<b>3. SOCIAL SERVICES</b> 3.1 Protective Services	Reforestation	Monitor illegal cutting of trees	Monitor illegal cutting of trees	Monitor illegal cutting of trees.

## POLICY RECOMMENDATION

SECTOR	PROPOSED POLICIES	OBJECTIVES OF THE POLICY	AFFECTED SITIOS/PUROKS	PROPOSED SCHEDULE OF ENACTMENT	RESPONSIBLE BARANGAY OFFICIAL/COMMITTEE INVOLVED
Land Use					
Economic Development					
Special Concerns: 1. Agriculture	Develop Crop & Livestock Zones	To increase production of cash/permanent crops, upgrade livestock & increase goat production	ALL PUROK	January 2, 2010	Committee on Agriculture
2. Poverty Reduction	Scholarship Program	To reduce illiteracy rates among children	Indigent families	April-May, 2010	Committee on Health & Education
3. Local Governance - Revenue Generation	Implement Brgy. Tax Revenue Ordinance	To intensify tax collection	ALL Purok	January- Dec. 2010	Brgy. Captain, Treasurer, Comm. On Finance
4. Infrastructure Development a. Road Network	Concreting, Rehabilitation of farm-to-market roads	To have easy access roads for transportation	ALL PUROK	January-March 2010	Comm. On Infra, Finance, & Public Works
b. Water Utilities	Installation of Reservoir	To provide potable water to HHS	ALL PUROK	January - March 2010	Committee on Infrastructure

## IMPLEMENTING STRUCTURE

SECTOR	BARANGAY COMMITTEE IN-CHARGE	ROLES AND RESPONSIBILITIES	CHAIRPERSON	MEMBERS
<b>LAND USE</b>	Committee on Public works	See to it that the programs & projects conform to the existing land use plan of the barangay		NGOs, Pos, MEO
